

The Volkswagen K2[®] Package
Your lift ticket has arrived.

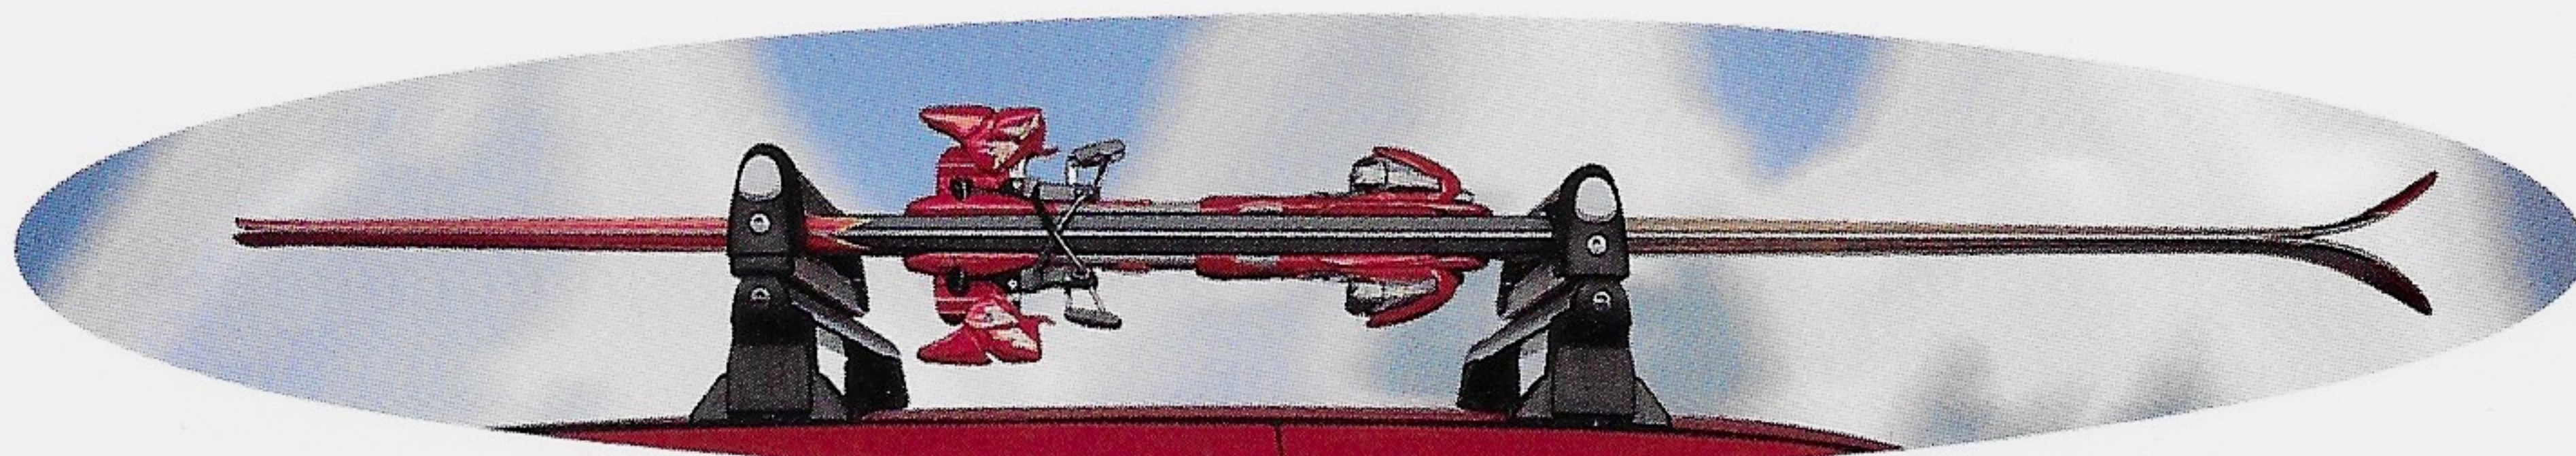

Drivers wanted. 

Now there's more than one way to carve up a mountain. Introducing the new Volkswagen Jetta K2 and its compadré the new

Golf K2. Both come with 115 horses (great for getting up hills) and both come with your choice of either K2 El Camino skis or a K2 Juju snowboard (which are equally handy for that ride down).

What's more, every K2 model comes standard with features like an 8 speaker stereo system, front fog lights, alloy wheels and of course an all purpose roof rack. Thereby turning these road gripping, German engineered cars into "the mobile homes of choice" for many certifiable powder junkies. On the road of life there are passengers and there are drivers.

Drivers wanted. 

Alloy Wheels: lightweight and durable.

Heated front seats: like a handwarmer, except a lot bigger and longer lasting.

Easy-to-read instrumentation panel gauges outside temperature.

Fog lights and daytime running lights for anything that might come between you and your mountain.

Really cool, super wintery badging.
