

**The new Passat.
Changing things changes things.**

We rethought everything.

From big stuff like the engine to more intimate details like brake-disc wipers. We found new ways to make the Passat fun to drive and added unique features you can only get from Volkswagen. But with all that thinking and rethinking going on, we also discovered a few curious side effects we thought you should know about.

Be on the lookout for paparazzi-types.

The Passat's sleek lines and agile silhouette make quite an impression. And even though you're probably not looking for any extra attention, you're about to get some. Because the new Passat is longer and wider than before, it has an aggressive stance that's sure to turn heads. And because it's laser-welded to create tighter gaps and improved aerodynamics, well, let's just say folks might start hiding in the bushes to get a closer look. To ensure your privacy, we suggest pulling your new Passat into the garage whenever possible.

Steering-adaptive Bi-Xenon headlamps

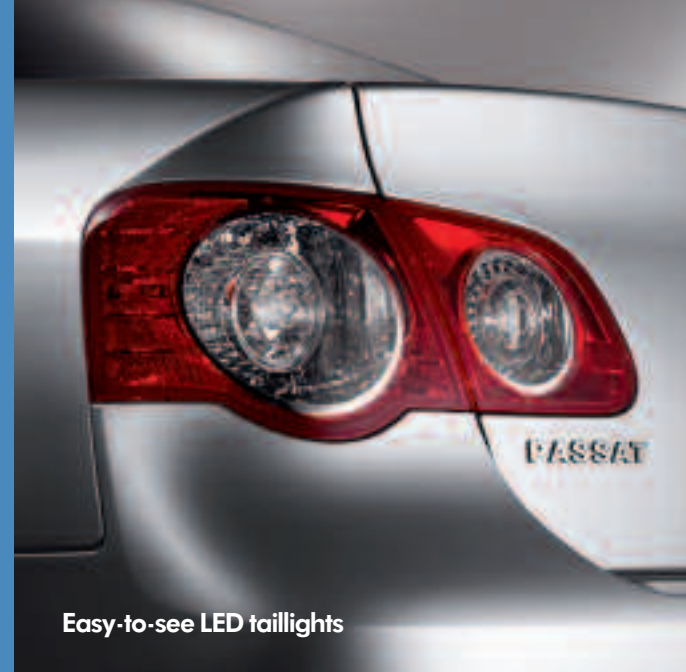

These smart headlights turn slightly as your car turns to illuminate the road ahead. (left)

Easy-to-see LED taillights

MORE RED-CARPET FEATURES

- Heated side mirrors
- Anti-theft wheel locks
- 17-inch alloy wheels
- Integrated fog lamps
- Trunk release integrated into rear badge

Rain-sensing windshield wipers

2

Passengers may never go home again.

It can be nice to have friends along for the ride. But when you've got 2 1/2-inches of extra rear legroom and split rear folding seats, your guests may never want to leave. And with reading lights and available heatable front seats, who can blame them for wanting to stay? When the need for alone-time strikes, we suggest reminding your passengers about that time in college when you almost drove your old car off the highway drag racing your brother. Then raise your eyebrows and rev the engine.

60/40 split rear folding seat with armrest

MAKE-YOURSELF-COMFORTABLE FEATURES

- 1 Instrumentation panel with multifunction trip computer
- 2 Multifunction steering wheel with audio controls
- 3 Premium eight-speaker sound system with six-disc CD changer; MP3 format readable and optional 600-watt Dynaudio premium sound system
- 4 DVD navigation system
- 5 Dual-zone Climatronic™ automatic climate control system

- ? Were you expecting your standard, run-of-the-mill car keys? Not only does this bladeless key slip conveniently into the dash-housed ignition, it comes complete with a radio-frequency remote transmitter. Bet you didn't see that one coming.

Power sunroof

Got stuff to stow? Along with more trunk space, we've added plenty of unique storage in the new Passat, including a self-draining umbrella holder hidden in the driver's side front door. (right) Pretty neat, huh?

Integrated umbrella holder

12-way adjustable seats

MORE FEEL-AT-HOME FEATURES

- Manual side and rear sunshades
- Heatable front seats
- Leather-wrapped steering wheel and shift knob
- HomeLink®
- Self-dimming interior rearview mirror

Can cause a **Too-Cool-For-School** complex.

When you've got either a 2.0T engine or a 3.6 liter V6 powerhouse under the hood, you could start walking with a little more swagger in your step. With 200 hp and 207 lb-ft of torque, the 2.0 liter is Turbocharged to deliver the might of a big engine in a small package. And the 3.6 liter V6 doles out a whopping 280 hp at 265 lb-ft of torque at your command. Both use FSI direct injection to ensure you get power when you need it. You might even be tempted to show off a bit, but there's no need to grandstand. With all that smart muscle at your fingertips, you won't have to.

200 hp 2.0TFSI Engine

Hill Hold Assist

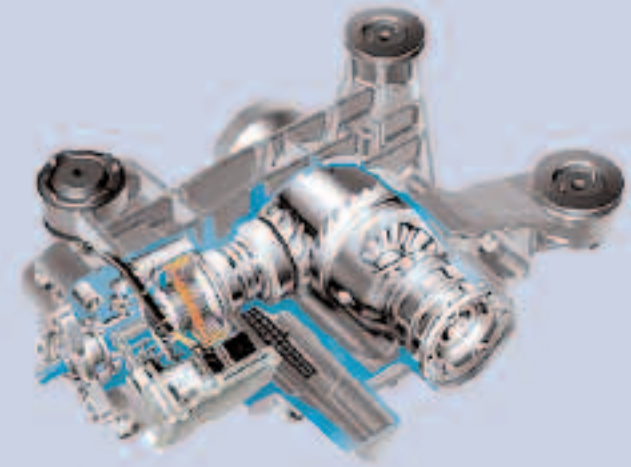

With all the Passat has to offer, we're sure you'll be driving all day. But why not give your right leg a rest? With the push of a button, Hill Hold Assist clamps on the brakes when you're stopped on a slope, then automatically releases when you start to pull away to help prevent the car from rolling backwards.

6-speed automatic transmission with Tiptronic®

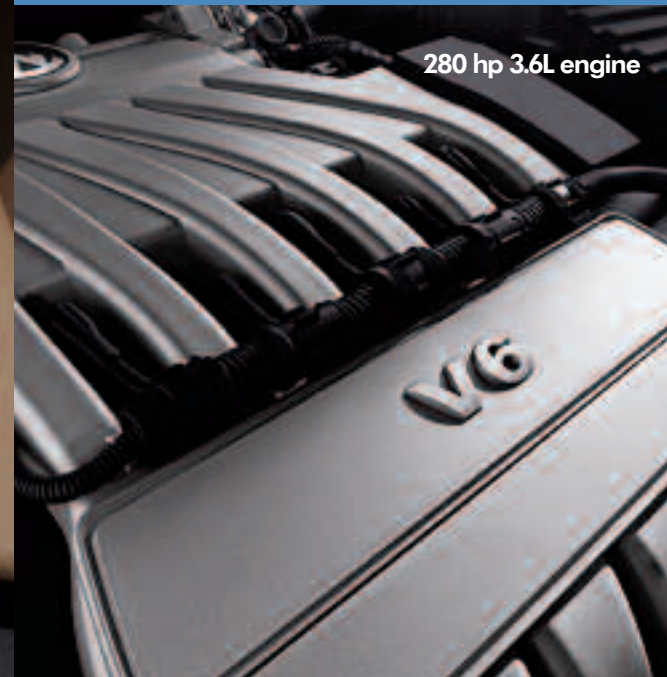

We've even amped-up our 4MOTION® traction control (right). This fully-integrated system is front-wheel biased, which means it provides even better fuel economy¹ by activating only when front-wheel slip is detected. It also means that it's smarter than the average front-wheel drive.

4MOTION all-wheel-drive system (detail)

280 hp 3.6L engine

MORE HEAD-OF-THE-CLASS FEATURES

- FSI (Fuel Straight Injection)
- Automatic brake-disc wipers
- Laser-guided parking assistance
- Electronic stabilization program
- Sport suspension
- Electronic parking brake
- 4-link independent rear suspension
- Electromechanical power steering
- 6-speed manual or automatic transmission

Features shown may be optional. Consult features and specifications for details.
¹EPA estimates only. Your fuel consumption may vary.

4

Rare cases of Synaptic Safety Syndrome have been reported.

One out of every 300¹ new Passat drivers get so used to the protection offered by our six standard airbags² and improved safety cage construction, they find themselves feeling completely exposed once they leave the car. Take our Front Active Head Restraints, for example. In the event of certain kinds of rear-on collisions, they actually move up and forward to help avoid the effects of whiplash. And though it's true – you can't expect that kind of care from, say, the subway or your office chair – there's really no need to strap on the helmet and kneepads.

¹This is a completely fictitious statistic. But it is kinda funny. ²Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

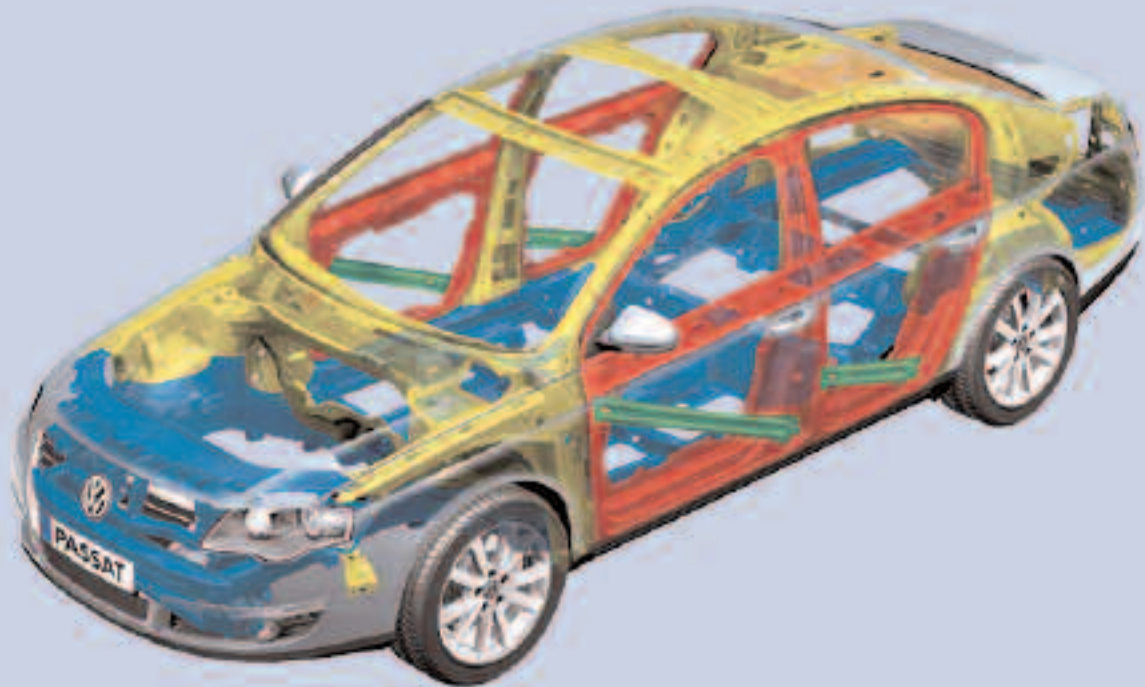

Front Active Head Restraints

Dual front and front side airbags with
Side Curtain Protection®

Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Reinforced safety cage

Can a key be a safety feature? It can when you remove it. The new Passat's ignition (below) is electric and we've moved it from the steering column to the dashboard to keep it out of the way of drivers' knees in case of an accident.

In-dash ignition

Electronic parking brake

OTHER SLEEP-TIGHT FEATURES

- Tire-pressure monitoring system
- Anti-lock braking system
- Engine brake assist
- Electronic brake pressure distribution
- Anti-slip regulation traction control
- Electronic differential lock
- Improved safety cage construction
- Crash-optimized front end
- Anti-intrusion side door beams
- 5 three-point safety belts

NEW PASSAT STANDARD FEATURES

All Passat models come with:

1. 60/40 split folding rear seat
2. Fully-reclining front comfort seats with height-adjustable (height and angle) head restraints and lumbar support
3. Climatic manual single-zone climate control
4. Dual front and front side impact airbags¹; supplemental restraint system and Side Curtain Protection airbags¹
5. ASR (Anti-Slip Regulation) traction control
6. ABS (Anti-lock Braking System) with electronic brake pressure distribution
7. Electronic Stabilization Program with brake assist
8. Six-disc CD changer preparation mounted in glove box
9. Anti-theft vehicle alarm system for doors, hood, trunk lid, radio and starter
10. Multifunction trip computer
11. Two-speed, Aero windshield wipers with adjustable intermittent wipe feature
12. Leatherette-trimmed seating
13. Three power outlets

¹Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

2.0T STANDARD FEATURES

The 2.0T also comes standard with:

1. 10-way partial power driver seat with four-way power-adjustable lumbar support and power recline
2. In-dash single CD player with eight-speaker sound system, MP3 readable
3. 6-speed manual transmission
4. 16-inch alloy wheels

2.0T OPTIONAL FEATURES

Pick the 2.0T and these options can also be yours:

2.0T Package 1
