Genuinely sporty. Effortlessly TT

The Audi TTS Coupé represents a long history of genuine Audi style with a progressive design, sporty driving pleasure and advanced technology. With its authentic Audi TT genes, this iconic vehicle pays close attention to detail – both externally and internally.

The Audi TTS Coupé features a quattro S tronic engine with 228kW of power and 380Nm of torque.

This timeless classic defines pure power with its dynamic driving behaviour and sporty character

Performance is an attitude

Simple sophistication

The high-quality interior of the Audi TTS Coupé highlights this vehicle's refined sportiness. The simplicity of the interior is characterised by the TTS sports seats with integrated head restraints that come standard with the TTS model. With a strong focus on style, the sports contour leather steering wheel with multifunction plus, and S-specific stitching, is tailor-made for your driving comfort.

The interior of this coupé is defined by soft, light lines that seem to almost float throughout the car. The emphasis on horizontals further expresses the expansive width of the interior.

Performance is an attitude

The addition of the optional Bang & Olufsen Sound System, including the 680-watt amplifier, 12 loudspeakers and two bass boxes, allows the interior to transform into your personalised space.

The close attention to detail is what makes the Audi TTS Coupé so impressive. A variety of intricate details in the interior demonstrate the high standards that Audi places on the quality and functionality of all control elements. These include round air vents with narrow chrome rings and a round split gear knob.

From your point of view

With a focus on the driver and their driving experience, the Audi TTS Coupé has an authentically Audi Virtual Cockpit with an innovative overview of important information about your TTS displayed. The cockpit also features racing gauges that allow you to characterise the way you drive.

The Audi TTS Coupé features MMI Navigation Plus with MMI touch and natural language voice control, taking your vehicle to a new level of tech.

With a number of driver assistance systems such as side assist, active lane assist, park assist, and a reversing camera, these models underscore the driver's ability to focus solely on the road.

Performance is an attitude

Where playful meets powerful

The heart and soul of the Audi TTS Coupé is an impressive turbo-charged 2.0 litre five-cylinder engine. The low centre of gravity combined with a low overall vehicle weight guarantees an unmatched drive. With a speedy acceleration from 0-100km/hr in 4.9 seconds, 228kW output, and 380Nm of torque, the TTS Coupé leads with high performance in its category.

The handling of the Audi TTS Coupé is precise, yet fun. With suspension highlights such as progressive steering, four-link rear suspension and Electronic Stabilization Control, this vehicle is responsive around every corner.

Performance is an attitude

Sporty and expressive

The TTS Coupé epitomises Audi's sporting DNA by representing the unique design language that makes this car stand out.

The TTS Coupé features a hexagonal Audi Singleframe with a three-dimensional radiator protective grille accentuating the front of the car and marking the beginning of horizontal lines running the length of the Coupé. With large side air inlets at the front and dual-branch tailpipes at the rear, the iconic character of this car is reimaged by its modern design.

See and be seen

The Matrix LED headlights, with dynamic indicator and cornering light function, ensure that your TTS Coupé embodies stylish safety throughout. These headlights automatically switch between the main beam and dipped beam when it's dark by reacting to current traffic situations. The headlight design boosts the Coupé's character with an energised and fresh look.

With a variety of colours and a range of wheels, tailor-make your TTS Coupé to suit your personality on the road. Choose from an assortment of colours such as a metallic effect or solid effect colours.
