Go Further

Adventure inspired.

Intelligent technology combines with sophisticated design and effortless performance, making the **KUGA** the ideal partner for your adventurous spirit. Life is a sport. We are the utility. The **KUGA**, adventure inspired.

SUV | SMART | UTILITY | VEHICLE

Smart meets style.

Wherever your travels take you, the **KUGA** delivers smart and effortless adventure with exciting technology you never want to be without.

International model shown, local specification and features will vary.
*Electronic handbrake available as an option on Ambiente with SYNC®3 and Navigation.
%Navigation available as an option on all models.

The world at your fingertips

Let the well-crafted interior of the **KUGA** elevate what you see, hear and touch. Delight in the ample storage space, thanks to a new electronic handbrake* that allows for an ergonomically placed gear shifter and new media bin at the base of the easy-to-navigate centre console. In addition to all the voice-activated benefits of SYNC® – placing and answering calls, and controlling music from your devices – you'll love the new easy-to-use interface of SYNC®3. Its 8-inch colour touchscreen displays phone, audio and Navigation® features, with enhanced voice recognition that lets you give simple commands. The capacitive touchscreen includes a convenient swipe feature, as well as pinch-to-zoom functionality within Navigation.

Extra set of eyes

The **KUGA**'s wide-angle rear-view camera automatically activates when the reverse gear is selected. It gives you a clear view of what's behind you and takes the guess work out of reversing.

SYNC®3 screen standard on Trend and ST-Line models.

Goodbye traditional handbrake

The **KUGA**'s space-saving electronic handbrake* lets you park securely with the touch of a button.

*Electronic handbrake standard on Trend and ST-Line models, optional on Ambiente models.

Stress-free parking

Say goodbye to the stress of parallel and perpendicular parking. First Enhanced Park Assist* helps you find a parking bay. It then helps to steer you in and even helps you steer out while you work the gears, accelerator and brake.

*Enhanced Park Assist available as part of Trend and ST-Line Driver Assistance Pack. Feature cannot be purchased separately.

In tune with your family.

When creating the **KUGA**'s interior, Ford designers had one lofty goal: Create the perfect family-sized cabin, a space that is completely intuitive to your needs.

Space that works for you

The spacious **KUGA** becomes even roomier when you fold down the 60:40 split rear seats. Fold down one seat to fit those extra pieces of luggage, and still have room for passengers. Fold both seats flat to carry a bigger load in the very sizeable 1 653-litres of space. There's even a hidden compartment for valuables.

Adjustable load floor

Lower the floor to make the storage space deeper, or raise it with the rear seats folded down to create a flat load floor.

Let the sun shine in

The **KUGA**'s panoramic glass roof* takes up 50% of the roof space, allowing you to bring the outdoors in, at the touch of a button.

*Panoramic glass roof optional on ST-Line models. Feature cannot be purchased separately.

Ready for anything.

Make the most of the terrain around you. The **KUGA**'s All-Wheel-Drive (AWD) and streamlined power and efficiency lets you take whatever your day serves up to you, with confidence.

Traction where you need it

This isn't just any All-Wheel-Drive* (AWD). Every 16 milliseconds, the **KUGA** adjusts which wheels get torque, so your cornering and traction is always at an optimum. It provides traction in all sorts of road conditions, whether rain, hail, snow or shine. But this isn't the only technology working to keep you effortlessly connected to the road. Torque Vectoring Control automatically transfers torque to the wheels with the most grip. The front end hugs the inside of every bend for superb handling, virtually eliminating under-steering.

*AWD functionality is model dependent.

Torque adjusts 62.5 times a second

The **KUGA**'s Intelligent AWD* system monitors each wheel, and increases or decreases the amount of torque to optimise grip and handling in all conditions. A display in your instrument panel lets you see how the system is performing, by giving you a graphic illustration of the power distribution between all four wheels.

*AWD functionality is model dependent.

Pulling power

The **KUGA** serves up substantial pulling power that is ever mindful of safety, from 1 600kg^a up to 1 800kg^a of maximum towing capacity (depending on engine selected). An array of built-in safety features, such as Hill Launch Assist and trailer sway control, keeps you and your trailer secure, so you can enjoy the journey from start to finish.

Accessory towbar is available from your Ford Dealer.
^aConnected to a braked trailer.

Power to do more.

The more time we can put between you and your next visit to the fuel pump, the better. The fuel-saving technology in the **KUGA** is designed to help lower your cost of ownership. All without the slightest compromise on style and performance.

Motivated to move.

The **KUGA** delivers the most powerful engines in its segment without the compromise of efficiency.

1.5l EcoBoost

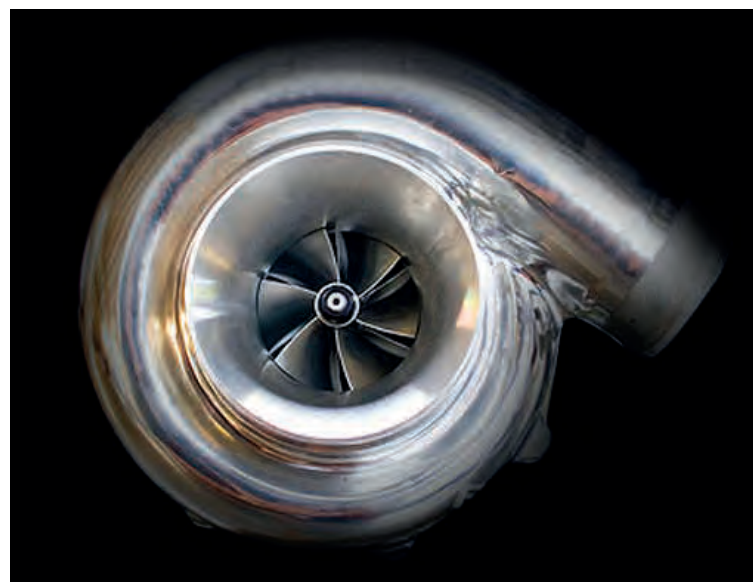

The impressive 1.5l engine delivers 110kW–132kW of power and 240Nm of torque. This turbocharged, direct-injection engine is standard on Ambiente and Trend derivatives features, robust low-end torque and virtually no turbo lag.

2.0l EcoBoost

Expect improved responsiveness of 177kW of power and quick torque delivery of 340Nm of torque, from the 2.0l twin-scroll turbocharged, direct-injection engine. The twin-scroll design maximises pulse energy to the turbine wheel for quick torque delivery when needed most, for example, when passing or merging onto a highway.

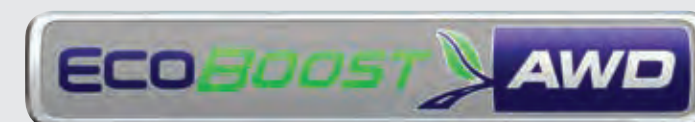

2.0l TDCi

With 1 800kg's pulling power, the 2.0l turbodiesel engine delivers a class-leading 132kW of power and 400Nm of torque. Responsive, refined and efficient, this engine sets new standards for what to expect from a modern turbodiesel engine.

Power and fuel efficiency, without compromise

EcoBoost engine technology turns traditional petrol-engine thinking on its head. Its advanced direct injection and turbocharging combines small-engine fuel economy and big-engine power into one, so you don't have to compromise on either.

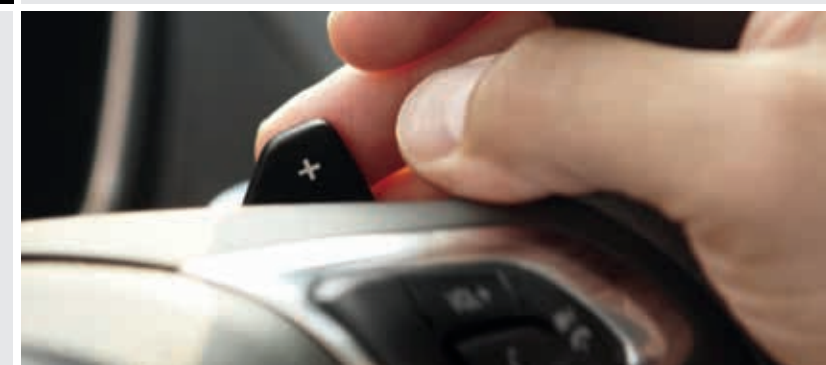

Feel the power, not the shift

Two types of engine, two types of automatic transmission. Make the most of the EcoBoost's responsiveness with the six-speed automatic transmission. Switch to manual mode, and you can work through the gears – without the clutch. The TDCi diesel with Ford PowerShift delivers the perfect combination of manual fuel efficiency and the ease of an automatic, selecting the next gear at precisely the right moment. Gear changes are effortless, with no disruption to power.

Ford technology

- Ford EcoBoost's innovative petrol-engine technology
- Six-speed SelectShift® automatic transmission with paddle shift and toggle shift*
- Auto-Stop/Start
- Roll Stability Control (RSC) with curve control
- Ford Duratorq TDCi (advanced diesel)
- Smart keyless entry with push-start button
- Power child locks
- Rear parking sensors
- Rear-view camera (standard)
- Hands-free 'open sesame' tailgate
- Ford EcoMode
- Seven airbags (standard)
- SYNC® with Bluetooth® and Voice Control (standard)
- Follow-me-home headlights

Automatic transmission paddle SelectShift®

Sports style paddle shift levers mounted on the steering wheel allow for faster up and down shifts while driving in manual SelectShift® mode.

*SelectShift® standard on all automatic transmission. Paddle shift standard on ST-Line models, and toggle shift standard on Ambiente and Trend models.

Auto-Stop/Start*

Even if you could improve your fuel economy by 4–10%** could you really be bothered turning your engine off every time you come to a standstill at lights or in traffic? Of course not. So the **KUGA** does it for you – automatically.

*Auto-Stop/Start functionality is model dependent.
**Tested on 1.5 FWD engines.

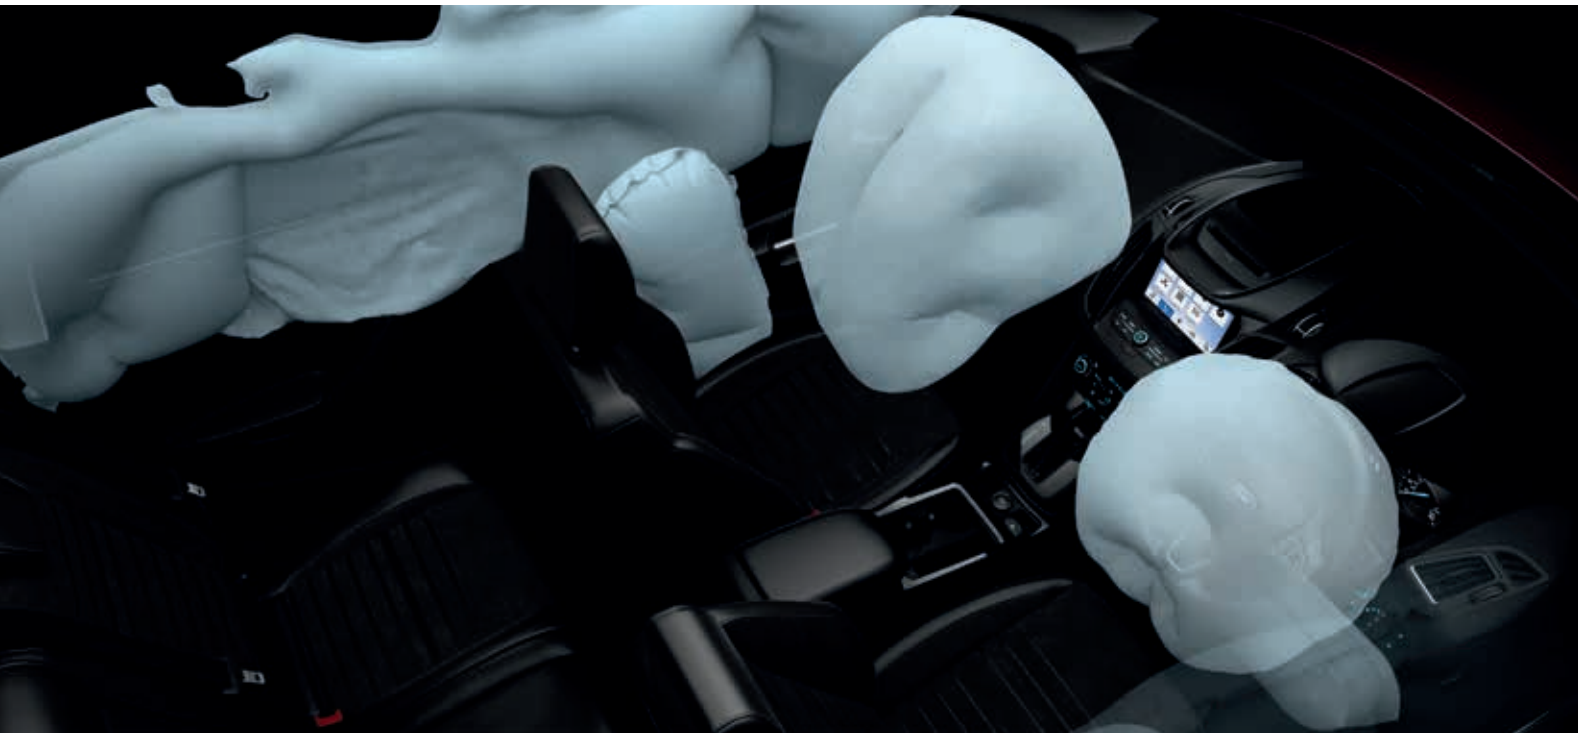

Ford EcoMode driver information system

This smart software monitors your driving style and displays its impact on the car's fuel economy. Floor the throttle and you'll receive a low score; drive efficiently and you'll be rewarded with a high score, and reduced running costs.

Extra levels of protection.

The **KUGA**'s highly advanced technology provides you with the very best levels of protection, and helps make your life simpler and stress-free too.

Safety in numbers

The **KUGA**'s seven airbags – including side-curtain airbags – offer 360-degrees of protection for both front and backseat passengers.

Intelligent Protection System (IPS)

The **KUGA**'s advanced Intelligent Protection System (IPS) uses a range of sophisticated technologies that are designed to help protect you, including an ultra-high-strength steel safety cage, Electronic Stability Programme (ESP) as well as front and curtain airbags.

The **KUGA** IPS includes:

- Driver and front-passenger airbags¹.
- Driver and front-passenger side-impact airbags.
- Side-curtain airbags for front and rear seats.
- Driver inflatable knee airbag.
- Collapsible steering column and pedals for optimised protection of driver's legs and feet.
- Robust computer-optimised body structure with ultra-rigid safety cell and crumple zones.
- Pre-tensioners, load-limiting retractors and height-adjustable mounts on front seatbelts.
- Anti-submarining seat bases.
- ISOFIX fixing points for child seats on rear outer seats.
- Electronic Stability Programme (ESP) with Anti-lock Braking System (ABS), Electronic Brakeforce Distribution (EBD) and Emergency Brake Assist (EBA).
- Emergency brake warning – automatic flashing of brake lights under heavy braking.
- Optional Active City Stop².
- Lane-departure Warning with Lane-keeping Aid³.

Note: A child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front-passenger airbag. The safest place for children is properly restrained on the second-row seats.

¹ Front passenger's airbag deactivation switch is available as a Dealer-fitted option.

² Uses sensors. Designed to operate at speeds below 30km/h.

³ Uses sensors. Operates at speeds over 65km/h on multi-lane roads with clearly visible lane markings.

BLIS (Blind Spot Information System)*

If another vehicle is in your blind spot when changing lanes, the Blind Spot Information System alerts you with a discreet warning light built into the driver and passenger doors' side mirrors.

*BLIS available as part of the Trend and ST line Driver Assistance Pack. Feature cannot be purchased separately.

Active City Stop*

When traffic is crawling along, it can be easy to miss someone suddenly stopping. In speeds under 30km/h, Active City Stop detects if the car ahead has unexpectedly stopped and automatically applies the brakes.

*Active City Stop available as part of the Trend and ST line Driver Assistance Pack. Feature cannot be purchased separately.

Adaptive Cruise Control

Adaptive Cruise Control and Collision Warning* helps maintain your choice speed at preset gaps from the vehicle in front of you. It can also alert you to a potential collision, if one is detected.

*Adaptive Cruise Control and Collision Warning available as part of the Trend and ST-Line Driver Assistance Pack. Feature cannot be purchased separately.

Lane-Departure Warning with Lane-Keeping Aid*

If you begin to drift towards the next lane, as you approach the road markings, your steering wheel will vibrate to let you know if your indicator is not on. Steering torque is applied to help remind you that you need to move back towards the lane you were in. Visual warnings also appear in the instrument panel.

*Lane-departure Warning with Lane-keeping Aid available as part of the Trend and ST-Line Driver Assistance Pack. Feature cannot be purchased separately.

Colour and trim.

Complementing the **KUGA's** stylish design, and satisfying your personal taste, is a range of attractive metallic and solid colours.

FORD CREDIT

As part of the Ford family, Ford **CREDIT** offers a number of unique finance products to make driving a new vehicle affordable and simple.

Our Ford **OPTIONS** product is designed to allow you to drive a brand new Ford more often, with the peace of mind that we guarantee its future value.*

For more information regarding our products, speak to your Ford Dealer or go to www.ford.co.za/buying/ford-credit/home.

FORD PROTECT

Genuine parts. Genuine service.

Enjoy years of trouble-free motoring and preserve the value of your new Ford by fitting only genuine Ford parts and accessories. Servicing your new Ford at a Ford Dealer will also protect you and your vehicle warranty.

*Subject to T&Cs.

Business and Commercial Fleet Customers.

The Ford portfolio of products is growing rapidly to meet your business needs.

Please contact your local Ford Dealer for more information
or visit our website www.ford.co.za/fleet
or alternatively email us at fleetsa@ford.com.

Ford PROTECT

Ford **PROTECT** offers a holistic suite of service, maintenance, warranty and roadside-assistance products aimed at keeping your **KUGA** in perfect working condition.

New Vehicle Warranty – Every **KUGA** comes with a 4-yr/120 000km Comprehensive Warranty.

Service Plan – The **KUGA** comes standard with a 6-yr/90 000km Service Plan with 15 000km intervals on all derivatives, which covers all scheduled servicing except friction materials, i.e brake pads and wiper blades.

Corrosion Warranty – 5-yr/unlimited km cover.

Roadside Assistance – 3-yr/unlimited km for cover mechanical, electrical, flat tyres, batteries, medical emergencies and towing, if needed, to the nearest Ford dealership.

New Vehicle Extended Warranty – An Extended Warranty may be purchased prior to the expiry of the 4-yr/120 000km New Vehicle Warranty, giving owners an extra 2-yr/80 000km of worry-free driving.

Consult the vehicle handbook, Ford Dealer or www.ford.co.za for more information regarding Ford **PROTECT** plans.

**The declared fuel consumption and CO2 emissions figures were achieved during technical laboratory testing in accordance with the legislated technical specifications (SANS 20101: 2006 / ECE R101: 2005 as last amended) and validated and approved by the UK Vehicle Certification Authority (VCA). Fuel consumption and CO2 emissions figures are used to compare different vehicle types under uniform conditions, and are not necessarily indicative of real-life driving conditions. Note that the actual fuel consumption and emissions levels will depend on many factors and are directly affected by the length of the journey; number of passengers and the amount of luggage carried; individual driving style; road conditions; weather conditions; vehicle age, mileage, condition and standard of maintenance; use of vehicle features such as air conditioning; and any modifications to the vehicle. Your fuel economy will vary based on these and other factors and, for these reasons, many drivers may not achieve the EU fuel economy figures in day-to-day driving, although the vehicle is technically capable of doing so.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully too.

Green

Using advanced Ford technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Safe

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to protect you.

Smart

Vehicles with smart intuitive technologies designed to connect your world, and many clever solutions from Ford that make life a little easier.

Ford reserves the right, subject to all applicable laws, to discontinue or change features and other specifications either temporarily or permanently, which will be communicated to the Ford Dealer Network. Printed October 2019.
