Go Further

FREEDOM IS WAITING

Choose the 3.2L TDCi engine with 6-speed auto transmission or the extraordinary new 2.0L Bi-Turbo engine with 10-speed auto transmission that delivers 157kW of power and 500Nm of peak torque, with greater engine refinement and outstanding fuel economy. Rear-wheel drive or four-wheel drive (4WD), both with seven seats, the New **EVEREST** is ready to discover what lies beyond the road's end.

Smart Technology*

The New **EVEREST** has the smarts. Reverse with confidence with a full and clear vision of what's behind you. If it senses there's an obstacle in your way, the rear parking sensors will sound to alert you. If Adaptive Cruise Control with forward collision alert senses slow moving traffic in front, it will slow down the vehicle too, while Lane-departure Warning and Lane-keeping System can help keep you stay on track on long road trips.

If you're looking for size, technology and safety to take on the city and beyond, the New **EVEREST** is the perfect fit. With satellite Navigation, rear-view camera, front and rear parking sensors and a commanding road presence you'll feel comfortable and in control. Plus, you can fit up to 5 child seats to help keep the family moving.

*Only available on Limited derivatives. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions.

ONE EPIC SUV

Our most adventurous SUV is now more advanced. The New **EVEREST** is incredibly dynamic on the road and right at home off-roading it. The design is bolder and more aerodynamic on the outside, while inside the tech is smarter and the addition of a new 2.0L Bi-Turbo with 10-speed automatic transmission takes power and fuel efficiency to the next level. So get ready to free your SUV and see what this New **EVEREST** can really do.

TOTAL COMFORT

The New **EVEREST's** interior is designed to get you and everything you need comfortably from A to B and beyond. The electrically powered 3rd-row of seats of the Limited, is easy to switch between cargo and people*.

*Only available on Limited derivatives.

EVER READY, EVER CAPABLE

Big Towing Capacity

Be ready for any task, no matter how big. The New **EVEREST** XLT and Limited models with the new Bi-Turbo diesel engine can now tow even heavier loads with a maximum rated towing capability of 3 100kg¹.

Keyless Entry & Push-Button Start²

Set off without ever taking the key out of your pocket. Just open the door to unlock the New **EVEREST** and press a button to start the engine.

Dual-Panel (Power) Moonroof³

Open up your world and experience life under clear blue skies with a glass panoramic moonroof that comprises nearly 50% of the New **EVEREST** Limited's roof space and includes a powered sunblind.

Terrain Management System

Tackle any surface⁴, on- or off-road, at the turn of a dial. With Terrain Management System⁵ on 4WD models you can shift modes to maximise traction and stability whether you're on snow, mud, grass, sand, rock, or road.

Pre-Collision Assist with Pedestrian Detection (Autonomous Emergency Braking)

On Limited models, this feature is designed to scan the traffic ahead and warn you if it senses the possibility of a collision with traffic or pedestrians. If a collision is likely, it can apply the brakes⁶.

Extraordinary Capability

The new **EVEREST** 4WD will confidently wade through water up to 800mm deep⁷ and with a high ground clearance of 225mm. Uphill isn't a battle either, thanks to Hill Launch Assist⁶. And on the way back, Hill Descent Control⁶.

¹Maximum towing capacity using a Genuine Ford Tow Pack. Subject to State and Territory regulations. To comply with these limits, occupants and/or luggage may need to be restricted. For further details regarding passenger and luggage restrictions, please consult your authorised Ford Dealer and/or refer to the Owner's Manual. ²Only available on XLT and Limited derivatives. ³Only available on Limited derivative. ⁴The driver is responsible for assessing off-road situations, determining if the terrain is passable and using appropriate off-road driving techniques. ⁵To activate Rock mode, the vehicle must be stationary and in 4WD low range. Mud, Grass, or Snow mode does not replace the need to fit chains if required. ⁶Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate at certain speeds, or in certain driving, road or weather conditions. ⁷Maintaining a steady speed of not more than 7km/h.

Colours

Copper Red (Metallic*)

Colorado Red (Solid)

Frozen White (Solid)

Absolute Black (Solid)

Sea Grey (Metallic*)

Diffused Silver (Metallic*)

Moondust Silver (Metallic*)

*Note: Metallic body colors incur additional costs.

Note: The images used are to illustrate body colors only and may not reflect the vehicle described. Colors reproduced within this brochure may vary from the actual colors, due to the limitations of the printing processes used.

Wheels

17" Alloy Wheel 265/65 R17
Standard on XLS derivatives only.

18" Alloy Wheel 265/60 R18
Standard on XLT derivatives only.
Optional on Limited derivatives.

20" Alloy Wheel 265/50 R20
Standard on Limited derivatives only.

FORD CREDIT

As part of the Ford family, Ford **CREDIT** can offer a number of unique finance options to make owning a new or used vehicle affordable and simple. For more information regarding Ford **CREDIT**, speak to your Ford Dealer or go to www.ford.co.za/buying/ford-credit/home.

FORD PROTECT

Genuine parts. Genuine service.

Enjoy years of trouble-free motoring and preserve the value of your new Ford by fitting only genuine Ford parts and accessories. Servicing your new Ford at a Ford Dealer will also protect you and your vehicle warranty.

Business and Commercial Fleet Customers.

The Ford portfolio of products is growing rapidly to meet your business needs.

Please contact your local Ford Dealer for more information
or visit our website at www.ford.co.za/fleet
or alternatively email us at fleetsa@ford.com.

Ford PROTECT

Ford PROTECT offers a holistic suite of service, maintenance, warranty and roadside-assistance products aimed at keeping your new EVEREST in perfect working condition.

New Vehicle Warranty – Every new EVEREST comes with a 4-yr/120 000km Comprehensive Warranty.

Service Plan – Every new EVEREST comes standard with a 6-yr/90 000km Service Plan, which covers all scheduled servicing except friction materials, i.e. brake pads and wiper blades. (All new EVEREST derivatives purchased after 1 April 2018 will have service intervals of 12 months/15 000km, whichever comes first. EVEREST derivatives purchased prior will have service intervals of 12 months/20 000km, whichever comes first.)

Corrosion Warranty – 5-yr/unlimited km cover.

Roadside Assistance – 3-yr/unlimited km cover for mechanical, electrical, flat tyres, batteries, medical emergencies and towing, if needed, to the nearest Ford dealership.

New Vehicle Extended Warranty – An Extended Warranty may be purchased prior to the expiry of the 4-yr/120 000km New Vehicle Warranty. You have many coverage, time and kilometre choices, ranging from 7 years to 300 000km from the date of sale.

Consult the vehicle handbook, a Ford Dealer or www.ford.co.za for more information regarding Ford PROTECT plans.

*The declared fuel consumption and CO₂ emissions figures were achieved during technical laboratory testing in accordance with the legislated technical specifications (SANS 20101: 2006/ ECE R101: 2005 as last amended) and validated and approved by the UK Vehicle Certification Authority (VCA). Fuel consumption and CO₂ emissions figures are used to compare different vehicle types under uniform conditions, and are not necessarily indicative of real-life driving conditions. Note that the actual fuel consumption and emissions levels will depend on many factors and are directly affected by the length of the journey; number of passengers and the amount of luggage carried; individual driving style; road conditions; weather conditions; vehicle age, mileage, condition and standard of maintenance; use of vehicle features such as air conditioning; and any modifications to the vehicle. Your fuel economy will vary based on these and other factors and, for these reasons, many drivers may not achieve the EU fuel economy figures in day-to-day driving, although the vehicle is technically capable of doing so.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully too.

Green

Using advanced Ford technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Safe

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to protect you.

Smart

Vehicles with smart intuitive technologies designed to connect your world, and many clever solutions from Ford that make life a little easier.
