

Kia Sonet

Begin your SUV life.

Movement that inspires

Your journey begins,

Be inspired by the new Kia Sonet compact SUV. Start with its refined and dynamic appearance. Add a stylish, connected and spacious cabin. Enjoy simple controls and forward-thinking technology. The compact and classy Sonet means journeys full of possibility and discovery.

Start with style.

Along with its go-anywhere capabilities, the new Sonet features sporty SUV contours and trim elements. A versatile rear hatch makes every journey a breeze. Stylish but fun, functional but future forward.

Full LED headlamps with LED DRLs

The alluring shape of the Sonet's front grill and light housings is inspired by the eyes and nose of a tiger.

C-pillars

The sturdy C-pillars behind the rear doors feature sporty trim accents that highlight the shapes of the tailgate and rear side windows.

LED rear lamps

Heartbeat-pattern LED tail lamps are both stylish and functional.

Diamond-cut 16-inch alloy wheels

Alloy wheels with smooth, angled silver spoke elements give the impression of motion, even when standing still.

Get comfortable. Stay connected.

Begin every journey from a commanding height, with plenty of room to stretch. Enjoy refreshingly simple connectivity to help you stay informed and entertained. Get moving with sufficient comfort and technology to keep your mind at ease.

Quality time, all the time

Ride comfortably on long trips with plenty of headroom and legroom front and rear. Firm, comfortable seats offer convenient cupholders, USB outlets, and storage areas well within reach of every occupant.

8-inch display audio & smart phone connectivity

In addition to its easy touch controls for the audio system, the 8-inch TFT-LCD audio display can show the screen image of a paired, compatible mobile phone by wireless phone projection using the Android Auto and Apple Carplay apps.

Rear View Monitor (RVM)

When the transmission is in reverse, the 8-inch audio display shows the area behind the Sonet, with parking guidelines superimposed on the video image.

4.2-inch supervision cluster

A full-color instrument cluster keeps you abreast of what's going on under the hood.

Precision-enhanced simplicity

A well-matched drivetrain offers reliable and invigorating performance and handling around town. Safety and performance are integrated better than ever before thanks to computational power and a new platform design.

6 airbags & remarkable rigidity

The Sonet offers the protection of a 6-airbag SRS system. High strength steel is applied throughout to improve rigidity, redirect impact forces, and protect the cabin and its occupants.

Tire Pressure Monitoring System (TPMS)

If a tire's pressure drops below a defined level, a warning on the supervision cluster shows you which tire is affected.

Parking Distance Warning (PDW)

With ultrasonic sensors mounted on the front and rear bumpers, PDW warns of any obstacles when you maneuver into tight spaces.

Hill-start Assist Control (HAC)

When you are stopped on an incline, HAC momentarily holds the brake as you move your foot to the accelerator, so you can make a safe, smooth start.

CVT and 6-speed manual transmission

The CVT automatically matches the effective ratios to engine and driving conditions. The 6-speed manual transmission lets you switch gears quickly and precisely.

Drive mode & traction control

On automatic models, the supervision cluster displays the status of the drive mode and traction control systems.

Begin exploring.

Inspiring journeys lead to new horizons. Set off on your own expedition, or always be prepared for one. The Sonet is available with exterior and interior options and accessories for motorists who are ready to explore the back roads or city boulevards.

Radiator grill / Front bumper and skid plate

392ℓ cargo capacity

Rear bumper and skid plate

Sunroof

Projection fog lamps
