

LEXUS

THE ALL-NEW LEXUS RC

## STRIKINGLY DYNAMIC

With a sleek coupe body style design that boasts sculpted lines and a wide, low stance, the RC 200t was designed from the ground up to seamlessly blend eye-catching design with breathtaking performance.

## CONTRAST AND HIGHLIGHT

The influence of highly-acclaimed, sports concept vehicles is evident in the RC 200t's interior. A purpose-built Lexus first-lighting package illuminates upwards, rather than downwards, enveloping the cabin. For the meticulous stitching and black or topaz leather trim, to the heated and ventilated front seats, the RC 200t was designed to give you a ride that is as luxurious as it is thrilling.

South African vehicle specifications may differ.  
RC 200t model shown

FOCUSED  
OPERATION

The driver's cockpit is divided into operational and display zones. The upper zone houses the instrument panel and a navigation screen while a layered centre console integrates a new Lexus first Remote Touch Interface. The seats utilise an integrated foaming construction method – much like racing seat moulding – to ensure optimum occupant comfort and support.

An F Sport inspired tree-spoke steering wheel with EPS, sets the tone for a unique interior that features an analogue clock and steering switch that enables you to operate and display information at your fingertips.

RC 200t model shown

ENGINEERED  
POWER

The RC 200t signals the next evolution of Lexus powertrain engineering. The turbocharged 2-litre engine delivers 350Nm of torque via an 8-speed sport direct shift transmission. The spirit of the RC 200t is audible in the note of its engine, specially tuned to deliver an evocative sports car sound.

## AN EXTERIOR BUILT TO DILATE PUPILS.

Outside the RC F SPORT, body rigidity ensures agile performance while a new triangular headlight design complements the symbolic Lexus L-shaped motif front and rear-combination lamps. A wide stance and low centre of gravity come together thanks to a wider spindle grill, wide bumper corners and front flares as well as a low-set bumper peak. Its striking 10-spoke, 19-inch aluminium alloy wheels feature prominent wheel arches that highlight large diameter tyres and accentuate the RC F SPORT's profile. The RC F SPORT keeps things steady with double wishbone suspension in the front and multi-link suspension in the rear, assisted by aero-stabilising fins on the rear bumper corners.

## IT SAYS YOU'VE ARRIVED. VERY QUICKLY.

The RC 350 F SPORT visually signals the more thrilling driving experience and performance the Lexus F heritage brings to the RC. Its long, low profile and sculpted bodylines aggressively slice the air as you're cradled inside the luxuriously composed cockpit. With a multitude of amenities, you'll find beautiful form and thoughtful function from headlight to tail light. Settle in for an exhilarating drive.

## AN INTERIOR BUILT TO KEEP THEM DILATED.

It just gets better inside, where an impressive driver-centric cockpit awaits. The new Remote Touch Interface employs Intuitive Touch-Sensitive Design using familiar smartphone finger commands to control audio while the navigation system can be voice activated. The unique new control interface was developed to amplify the tactile feedback of the RC's driving experience. Cabin lighting reflects upwards to bathe the interior with striking illumination. Integrated foaming construction of the seats attaches the upholstery directly to the foam for a snugger, tighter, non-slip seat to ensure optimum occupant comfort and support, crucial in a sports coupe.

## HAPPY ON THE ROAD, BUT MOST COMFORTABLE IN THE PASSING LANE.

Tuned for speed. On the RC 350 F SPORT, speed, steering and other dynamic inputs are monitored by the Lexus Dynamic Handling (LDH) system, which makes minute changes in the turning angle of the rear wheels for optimal stability and agility at higher speeds and excellent maneuverability at low speeds.

Custom-tuned suspension employs an Adaptive Variable Suspension (AVS) system that continually optimises the attenuation force of the shock absorbers to ensure riding comfort, stable control, performance and safety under a variety of driving and road conditions.

South African vehicle specifications may differ.  
F SPORT model shown

### SUSPENSION

Adaptive Variable Suspension (AVS)\* automatically and independently adjusts the performance dampening of all four wheels to deliver maximum agility. In the vehicle's SPORT+ drive mode, the AVS helps you feel improved body control and precise responses to your steering.

### UNMISTAKABLY, F SPORT

Beyond the exclusive F SPORT mesh design, the aggressive grille undergoes a stunningly unique further evolution. The 19-inch mesh alloy wheels feature machine-finish and dark metallic paint. Command the road with the perforated leather steering wheel and shift knob. The F SPORT's exclusive and unmistakable Dark Rose or Black anoints the interior, complemented by Silver Performance trim and seats with unique contrast stitching. The audio system delivers incredible sound through ultra high-efficiency speakers.

\* Available in F SPORT

### Electronic Power Steering (EPS)

The Electronic Power Steering integrates with the Drive Mode Select to adjust steering response for the different drive modes. The steering power-assistance curve can be varied to increase steering feedback, for a more direct steering feel – with VGRS for F SPORT.

### REMOTE TOUCH INTERFACE

Lexus' innovative touch-sensitive Remote Touch Interface links the driver more directly to the audio and navigation systems of the vehicle. The unique new control interface was developed to amplify the tactile feedback of the RC's sports-coupe driving experience.

### DYNAMIC HANDLING

The Lexus Dynamic Handling (LDH)\* system monitors speed, direction, lateral G, and driver inputs to calculate the optimal angle for all four wheels. With Rear Wheel Drive (RWD), and Variable Gear Ratio Steering (VGRS), a powerful team of features working together to independently manage front and rear steering angles to improve turn-in response, rear grip, vehicle control, and overall agility through turns. LDH can alter rear wheel steering up to 2.0 degrees – at lower speeds, front and rear wheels turn in opposite directions; at higher speeds, they turn in the same direction.

AHEAD, BESIDE, BEHIND:  
THE RC SEES IT ALL.

### LANE KEEPING ASSIST\*

Lane Keeping Assist uses a camera mounted behind the rear view mirror to help monitor your position in your lane and warns you if you inadvertently drift out of it. Automatic High Beam uses the same camera to switch to low beam when the lights of oncoming or preceding vehicles are detected.

### VEHICLE DYNAMIC INTEGRATED MANAGEMENT (VDIM)

The RC features a VDIM system that is designed to predict and take steps to help prevent a loss of traction even before it occurs by using a combination of throttle control, individual-wheel braking and steering torque assistance. The Sport S and Sport S+ VDIM mode setting adjusts the sensitivity of the vehicle skid control and traction control systems, raising the threshold before the system intervenes, thus enabling to push the RC to its limits. The newly calibrated VDIM adds a vertical G-sensor to provide greater vehicle stability.

FEEL FREE TO HAVE A STARE  
UNDER THE HOOD.

### V6 ENGINE\*

Hand built and stethoscope tuned, this incredible 3.5-litre V6 engine develops 233kW and 378Nm of torque. All moving parts are designed to provide increased maximum power at higher revs. Thrilling to hear, advanced sound engineering creates a deeply resonant tone up to 4800rpm and a higher-pitched roar as the revolutions rise above 6000rpm under hard acceleration.

### 8-SPEED TRANSMISSION

The engine delivers power via an 8-speed Sport Direct Shift sequential transmission with manual override. Select Manual Mode and use shift paddles to enjoy rapid sports performance. When paddle down-shifting, you'll experience the unique sound of the throttle "blipping" between gears.

\* Available in F SPORT

LEXUS DISTANCE PLANS

INTRODUCTION

Welcome to the growing group of value-conscious people who drive Lexus. We are proud of the advanced engineering and quality construction of each vehicle we build.

The Lexus Distance Plans give you and all Lexus owners peace of mind and fixed costs motoring. The Lexus Distance Plans are fully supported and approved by Toyota SA Motors. The Lexus Distance Plans are designed to give you, the motorist, a value-added product that supports your needs by containing motoring costs. Lexus Distance Plans offer all customers access to service at any Lexus dealership in South Africa and Lexus dealerships in our neighbouring countries, i.e. Namibia, Lesotho, Swaziland and Botswana.

The Lexus Distance Plans cover all your normal operating condition services up to 4 years/100 000km. All servicing must be carried out according to the specified service intervals stipulated in the vehicle’s Book of Life to ensure that the Distance Plan and the vehicles warranty remains valid.

All Lexus owners have an option to upgrade the Lexus Distance Plans. Lexus offers our customers various options in terms of choice of cover, dependent on individual requirements.

Please feel free to contact your nearest Lexus dealer for the various options to upgrade your Distance Plan. We at Lexus appreciate and value your support and aim to make vehicle ownership a positive experience for all our customers. Please read on to familiarise yourself with the Lexus Distance Plan.

INCEPTION DATE OF PLAN

The inception date of the Lexus Distance Plans will be the same as the vehicle’s warranty inception date. The same will apply to all demonstration vehicles sold by a Lexus dealership.

WHAT DOES THE LEXUS DISTANCE PLAN COVER?

- Covered:
- All manufacturer-specified services (normal schedule) up to 4 years/100 000km whichever occurs first (\*1)

WHAT DOES THE LEXUS DISTANCE PLAN PLUS COVER?

- Covered:
- All manufacturer-specified services (normal schedule) up to 4 years/100 000km whichever occurs first (\*2)
  - Front disc brake pads (limited to 5 sets)
  - Rear disc brake pads (limited to 3 sets)

WHAT DOES THE LEXUS DISTANCE PLAN COMPLETE COVER?

- Covered:
- All manufacturer-specified services (normal schedule) up to 4 years/ 100 000km whichever comes first
  - Mechanical components – repaired or replaced due to normal wear and tear

WHAT IS NOT COVERED BY THE LEXUS DISTANCE PLANS?

- Not Covered:
- Obtaining of fuel
  - Engine top-up oil and other lubricants and service items required between routine servicing of the vehicle
  - Tyres, wheel alignment and wheel balancing
  - (\*1) Maintenance repairs of wearing items for Distance Plan (e.g. brakes, clutches, exhausts, batteries, etc.)
  - (\*2) Maintenance repairs or wearing items for Distance Plan Plus (e.g. brake discs, brake callipers, clutches, exhausts, batteries, etc.)
  - Non-Lexus approved additives
  - Paint/ body/ trim repairs
  - Accessories
  - Unreasonable requests
  - Alterations and modifications
  - Driver abuse/ negligence or unreasonable use including any form of competition

- Insurance-related claims and repairs
- Accident damage
- Rattles and squeaks
- Cleaning of fuel system
- Cracked or broken glass
- Expenses incurred at non-Lexus dealers
- Flood, riot, weather and fire damage
- Engine tuning
- Repairs or damage as a result of non-compliance to service requirements or warranty obligations
- Damage incurred through the vehicle having been driven with insufficient engine lubricants or coolant
- Any claims arising outside the borders of South Africa, Namibia, Lesotho, Swaziland or Botswana
- Items requiring replacement as a result of severe operating conditions will be for the customer’s account. The severe operating schedule is not covered in any of the Distance Plans

NB: Consult your Lexus dealer for more information on your vehicle’s warranty terms and conditions.
