# Caddy Panel Van

Caddy

# The Caddy Panel Van

## Low Fuel Consumption

Averaging from  
5.7 to 8.2ℓ/100 km\*.

## Cleverly thought out storage system

Several storage possibilities  
in the interior.

## Unique drive concept

DSG® dual clutch gearbox.

## High payload

Up to 798 kg in the  
Caddy Maxi Panel Van.

## Standards of safety

Includes driver and front  
passenger airbags and  
Multi-Collision Braking (MCB)  
System as standard.

## Long load compartment

Up to 2,249 mm in  
the Caddy Maxi.

## Maximum functionality and flexibility

Front double folding passenger seats.  
Wide sliding door which comes  
standard on the Caddy Panel Van  
and Caddy Maxi Panel Van.

\*Fuel consumption and CO<sub>2</sub> emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version). The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values. Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle. of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values. Based on lightest variable (no options) and 90% tank filling. # Getting the job done

**Each day brings countless new challenges, which call for quick and professional solutions.**

With the Caddy Panel Van you have a vehicle that provide the best support in virtually every situation. More functional, flexible and versatile than ever before, the manoeuvrable and compact light commercial vehicles offer you everything you need to convey a professional image to your customers.

# The design

No matter what industry you work in, the Caddy Panel Van always exudes a high degree of competence and dependability.

This is achieved through its sharper and clearer lines, dynamic front, and redesigned back end. The Caddy Panel Van comes standard with rear wing doors. Further highlights include the chrome trim strip on the radiator grille, and the striking headlights.

## The interior

The Caddy has been thoroughly enhanced – outside and inside. The high-quality finish on the cockpit impresses with its clearly arranged instrument cluster and easy-grip steering wheel with sporty flat bottom. This can be adjusted to individual preferences, and promotes a natural seating position.

# The cleverly thought-out system

**In any and every job,  
efficiency and  
organisation is key.**

The Caddy offers you the support you need, with a storage system made up of several storage compartments and surfaces of varying sizes. Take, for instance, the roof shelf, which extends across the full width of the vehicle, and opens directly above the driver and front passenger seats. Invisible from outside, it offers sufficient space for work gloves, a lunchbox, or a notebook computer.

The storage pockets in the doors can hold a 1-litre bottle each, while the centre console is equipped with four cup holders. For the first time, two open glove compartments are also included. This keeps everything in the right place.

# The wide sliding door and tail-end solutions

**Hop in, hop out. The doors of a commercial vehicle are opened and closed repeatedly over the course of a day – and heavily strained in the process.**

That is why the Caddy is built with hinges, rails and handles that are equal to the most demanding conditions. The low loading sill height, and numerous door variants are also a testament to this. The tailgate is equipped with a soft touch closing system as standard for effortless loading and unloading.

#### **The Caddy Maxi Panel Van and Panel Van Sport**

The short wheelbase Caddy Panel Van comes standard with a sliding door on the left with the option of a sliding door on the right.

Rear wing doors (¾ to ¼) come standard on the Caddy Panel Van.

Caddy Panel Van

Caddy Maxi Panel Van

# The Caddy Panel Van

**Big, yet compact: The load compartment of the Caddy Panel Van triumphs with its impressive volume and range of loading options.**

Even with the short wheelbase, it offers a load capacity of 3.2 m<sup>3</sup>, which increases to 4.2 m<sup>3</sup> for the Caddy Maxi Panel Van. The level load compartment is accessible through the rear, or the windowless roof-height sliding door on the front passenger side. This guarantees complete privacy, and prevents possible break-ins.

# Form and function

**The Caddy Panel Van boasts a generous load compartment, which can be equipped according to your needs.**

Standard equipment includes rubber flooring in the cab, partitioning and six to eight lashing rings. The Caddy Panel Van is suitable for conversions and, in practically no time at all, it can be converted into a fully functional service vehicle for repair services, installation work and many other industries.

#### **Lashing rings**

The load compartment has six to eight fold-down lashing rings that are securely mounted to the vehicle floor. You can fix tools and materials securely, in compliance with regulations, with the aid of the tear-resistant tensioning belts.

# The Caddy Maxi Panel Van

**Extended load compartment.**  
**High towing capacity.**  
**Excellent payload.**

Those who frequently transport heavy or bulky goods will appreciate the high payload and large load compartment volume of the Caddy Maxi Panel Van. Compared to the Caddy Panel Van with short wheelbase, the load volume capacity is 1 m<sup>3</sup> greater at 4.2 m<sup>3</sup>. Eight built-in lashing rings are provided in the load compartment floor to ensure that the load is secured in compliance with regulations.

Compatible tensioning belts and safety nets are available on request from your Volkswagen Commercial Vehicles Dealership. With the Caddy Maxi Panel Van you can tow a braked trailer load of up to 1,500 kg.

# The Caddy

## Maxi Panel Van Sport

### Life is more exciting in the Caddy Maxi Panel Van Sport.

With body-coloured bumpers and mirror housings, 16" 'Fortaleza' alloy wheels and front fog lights, work has never looked this good. With so many convenient features, like electric windows and exterior mirrors, dual sliding doors for easy access and a Composition Audio radio, getting the job done has never been this comfortable.

# The standard equipment

## Caddy Panel Van

- 5-speed manual
- Multi-Collision Braking (MCB) System
- 15" steel wheels
- 2 seats
- Manual windows
- Driver and front passenger airbags (including front passenger deactivation)
- Composition radio media with LCD screen
- Manually controlled heating system
- Servotronic® power-steering (speed-sensitive)
- 6 lashing rings
- Left sliding door
- Roof rail preparation
- Rear wing doors with windows covered by opaque film on the inside
- Separate daytime running lights (permanently switched on during driving)
- 4-year / 60,000km EasyDrive Vehicle Maintenance Plans  
\*Subject to an Active Standard Volkswagen warranty or an Active Genuine Volkswagen Maintenance Plan
- 3-year / 60,000km EasyDrive Vehicle Service Plans
- 2-year unlimited warranty

# Engines

## DSG® for 103 kW engines

### Dual clutch gearbox DSG®

Thanks to the intelligent gearshift system, the 6-speed gearbox changes fluidly at the right time to the next preselected gear. The gears can also be changed with a light tap.

### 1.6 ℓ petrol (81 kW)

Average fuel consumption:  
from 7.3 to 8.2 ℓ/100 km

### 2.0 ℓ TDI (81 kW)

Average fuel consumption:  
from 5.7 to 5.8 ℓ/100 km

### 2.0 ℓ TDI (103 kW)

Average fuel consumption:  
from 6.3 ℓ/100 km

## TDI

### The TDI engines

The fuel-efficient 2.0 ℓ turbo diesel engines with common rail direct injection are available in several performance levels. The 81 kW and 103 kW versions have impressive fuel consumption and emissions values. The 103 kW engines can be combined with the dual clutch gearbox DSG®.

# The safety systems

## Safe. Even in critical situations.

To ensure that every drive ends as stress-free as it begins, the Caddy is equipped with various safety systems, which are activated in critical situations as a preventative measure. New to the onboard standard equipment is the Multi-Collision Braking System. Following an accident, the vehicle begins a phased braking action down to 10 km/h in order to prevent secondary collisions. Should an impact nonetheless result, driver and front passenger airbags come standard. Curtain airbags are optional on all Panel Van models.

### Electronic Stability Programme (ESP)

It prevents under- or over-steering via targeted braking of individual wheels.

### Anti-lock Braking System (ABS)

Prevents wheel block and, thus, maintains manoeuvrability.

### Electronic Differential Lock (EDL)

Distributes the engine torque to the tyres without slippage.

### Traction Control System (TCS)

Prevents wheelspin.

### Multi-Collision Braking System

Triggers braking after a collision, with the aim of preventing secondary collisions. This system activates when two independent sensors detect an accident. After a short delay, the vehicle begins a phased braking action down to 10 km/h, during which the driver can take over at any time.

### Seatbelt warning

If their seatbelts are not fastened, the seatbelt warning reminds the driver and front passenger to fasten their belts with a visual warning when the engine is started, and an acoustic warning after setting off.

### Airbags

Driver and front passenger airbags offer the occupants of the cockpit the best possible protection in the event of head-on impacts. The front passenger airbag can be deactivated using the vehicle key.

All features standard on Caddy Panel Van

# The driver assistance systems

## Comfort on the job and on the road.

The Caddy can be fitted with a range of innovative driver assistance systems on request. These constantly analyse driving behaviour, so as to be able to intervene to assist the driver if necessary. Therefore, you and your passengers have even greater comfort on the road.

### Driver Alert System (O)

Uses visual and acoustic warning signals to recommend that the driver takes a break as soon as it registers driving behaviour that indicates fatigue.

### Brake Assist System (X)

Registers the speed at which the brake pedal is pressed. During a reflexive or emergency braking action, it ensures that full brake pressure is built up more quickly.

### Daytime Running Lights (X)

Switch on automatically when the ignition is activated and lower the risk of an accident in daylight.

### Hill Start Assist (X)

Prevents the vehicle from rolling back on inclines and makes handling easier when starting up on uphill slopes (available on DSG® models only).

### Cruise Control (O)

With a speed of 30 km/h, it maintains the desired speed depending on uphill and downhill inclines or limits the top speed to a value selected by the driver.

### Fog Lights (O)

Ensures optimal visibility in poor weather conditions. (Standard for Caddy Panel Van Sports)

### Rear Park Distance Control (PDC) (O)

Emits audible warnings when obstacles are detected behind the vehicle when parking, and also provides a visual display of the vehicle's distance from the obstacles.

### "Rear-view" Reversing Camera (O)

Simplifies parking by showing a limited view of the area behind the vehicle on the display of the radio system. Additional static guidelines facilitate the parking process. The reversing camera is only available in combination with the tailgate.

**X = standard O = optional**

# Infotainment

**01 Mobile Phone Interface (X)** (not illustrated). A wireless Bluetooth interface enables you to make phone calls safely and conveniently during the journey using a microphone and the vehicle loudspeakers.

**02 Leather-covered Multi-function Steering Wheel (O)**

It gives you a good grip and is extremely user-friendly. The radio, a mobile phone or the cruise control can be controlled using the buttons.

**03 "Plus" Multi-function Display (not illustrated) (O)**

In addition to the functions of the multi-function display, it can be used to adjust the optional Light & Sight package. Standard on DSG® models only and available as an option across the rest of the range.

**04 Multi-function Display (not illustrated) (O)**

It shows current information, such as the time, remaining range, outside temperature, average consumption, and a gear recommendation for more fuel-efficient driving. Optional across the range with the exception of DSG® models.

**05 "Composition Audio" Radio System (X)**

The system consists of a TFT monochrome display, a 2 x 20 watt output with two loudspeakers, an SD-card slot, an AUX-IN interface and a USB port.

#### 08 "Composition Media" Radio System (O)

The system consists of a 16.5 cm (6.33-inch) TFT colour display, a touchscreen with proximity sensor, an MP3- and WMA-compatible CD drive, a 4 x 20 Watt output with four loudspeakers, a dual tuner with PhaseDiversity for optimal radio reception, an SD-card slot, an AUX-IN interface, a USB port and a Bluetooth connection for mobile phones.

Available on Caddy Panel Van Sport models only.

# Comfort

## 01 Lockable Glove Compartment (X)

Documents and valuable items can be kept safe behind the lockable lid, so that they cannot be seen from outside the vehicle.

## 02 Electric Windows (O)

The flip switches are comfortably located within easy reach in the armrest on the door interiors, and have a comfort switch with jamming protector. Along with the electrically adjustable and heated exterior mirrors, these make up the Electric package.

## 03 Light & Sight Package (not illustrated) (O)

Sensors dim the rear-view mirror when the lights of the vehicle behind are too bright, and regulate the intervals of the windscreen wipers during rain. The automatic driving light control with daytime running lights switches the headlights on automatically when it starts to get dark. The package also features the manual "coming home" and "leaving home" functions. Available on Caddy Maxi Panel Van and Caddy Maxi Panel Van Sport models.

## 04 Airconditioning (X)

The semi-automatic airconditioning has an infinite adjustment, so that a pleasant interior temperature can be ensured at all times.

## 05 12 V Socket In Compartment, Front (X)

A 12 V socket is integrated into the open storage compartment on the dash panel, e.g. for mobile phones or notebooks.

# Exterior

## **01** Towbar Preparation (not illustrated) (X)

The trailer detection control unit and professional wiring allow a trailer coupling to be easily retrofitted at any time, and is also fitted with trailer stabilisation.

## **02** Fixed Towbar (O)

It is designed for trailer loads from 660 kg (unbraked) to 1,500 kg (braked), and is also fitted with trailer stabilisation.

## **03** Bi-Xenon Headlights (O)

The Bi-Xenon headlights produce both high and low beams, and illuminate the roadway significantly better than conventional halogen headlights. They also stand out due to their low energy consumption and high durability.

## **04** Fog Lights (X)

They ensure a wide illumination of the roadway in thick fog, snow or heavy rain, and make safe driving easier.

# Wheels & Rims

**Steel Wheel (X)**  
6 J x 15 with 195/65 R15 tyre  
(Standard on short wheelbase models only)

**Caloundra (O)**  
Alloy wheels

# Buying a Volkswagen is only the beginning of our journey together

At Volkswagen, it's our mission to keep you and your family moving forward on life's journey. That's why we have a range of products and services designed to keep your Volkswagen in optimum condition and give you peace of mind. From car services and maintenance plans, to genuine parts and roadside assistance, Volkswagen is with you all the way.

**You do life,**  
we'll take care of the ride

Volkswagen's EasyDrive Vehicle Plans offer affordable and easy to understand cover on Service and Maintenance Plans. Our plans offer specialist care from qualified Volkswagen experts, ensuring your vehicle maintains its re-sale value. This way you can get back to enjoying the journey.

**Service you know straight**  
from the Get-Go

The Get-Go service is available to all Volkswagen drivers with a vehicle that's four years or older, and without a Service or Maintenance Plan. You can get an affordable annual service for your Volkswagen by knowing the rate from the get-go. Get-Go Service includes parts and labour and will help you to maintain your service history.

## Disclaimer

1. Dimensions, capacities and abilities apply to standard vehicles.
2. Actual consumption will vary with vehicle loading, driving style, climatic and road conditions.
3. This information was effective as at 01 July 2020 valid for model year 20 and is subject to change without notice.

All diesel vehicles require low sulphur grade diesel of 50 ppm or lower.

### \*Fuel Consumption and Carbon Dioxide Emission Figures

Fuel consumption and CO<sub>2</sub> emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version). The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values. Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle. All measurements listed are based on series vehicles. Because of manufacturing tolerances/tyre sizes/type of chassis, the actual dimensions may differ slightly from the values stated here. The information about the degree of slope angle front and rear as well as the ramp angle each refer to the loaded condition of the vehicle in consideration of the gross vehicle weight.

\*\*A combination of leather and high quality durable materials.

## Disclaimer

1. Dimensions, capacities and abilities apply to standard vehicles.
2. Actual consumption will vary with vehicle loading, driving style, climatic and road conditions.
3. This information was effective as at 01 July 2020 valid for model year 20 and is subject to change without notice.

All diesel vehicles require low sulphur grade diesel of 50 ppm or lower.

## \*Fuel Consumption and Carbon Dioxide Emission Figures

Fuel consumption and CO<sub>2</sub> emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version). The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values. Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle. All measurements listed are based on series vehicles. Because of manufacturing tolerances/tyre sizes/type of chassis, the actual dimensions may differ slightly from the values stated here. The information about the degree of slope angle front and rear as well as the ramp angle each refer to the loaded condition of the vehicle in consideration of the gross vehicle weight.

\*\*A combination of leather and high quality durable materials.
