

Citi

For the love of People's Cars.

*Reclaim the city.
One street at a time.*

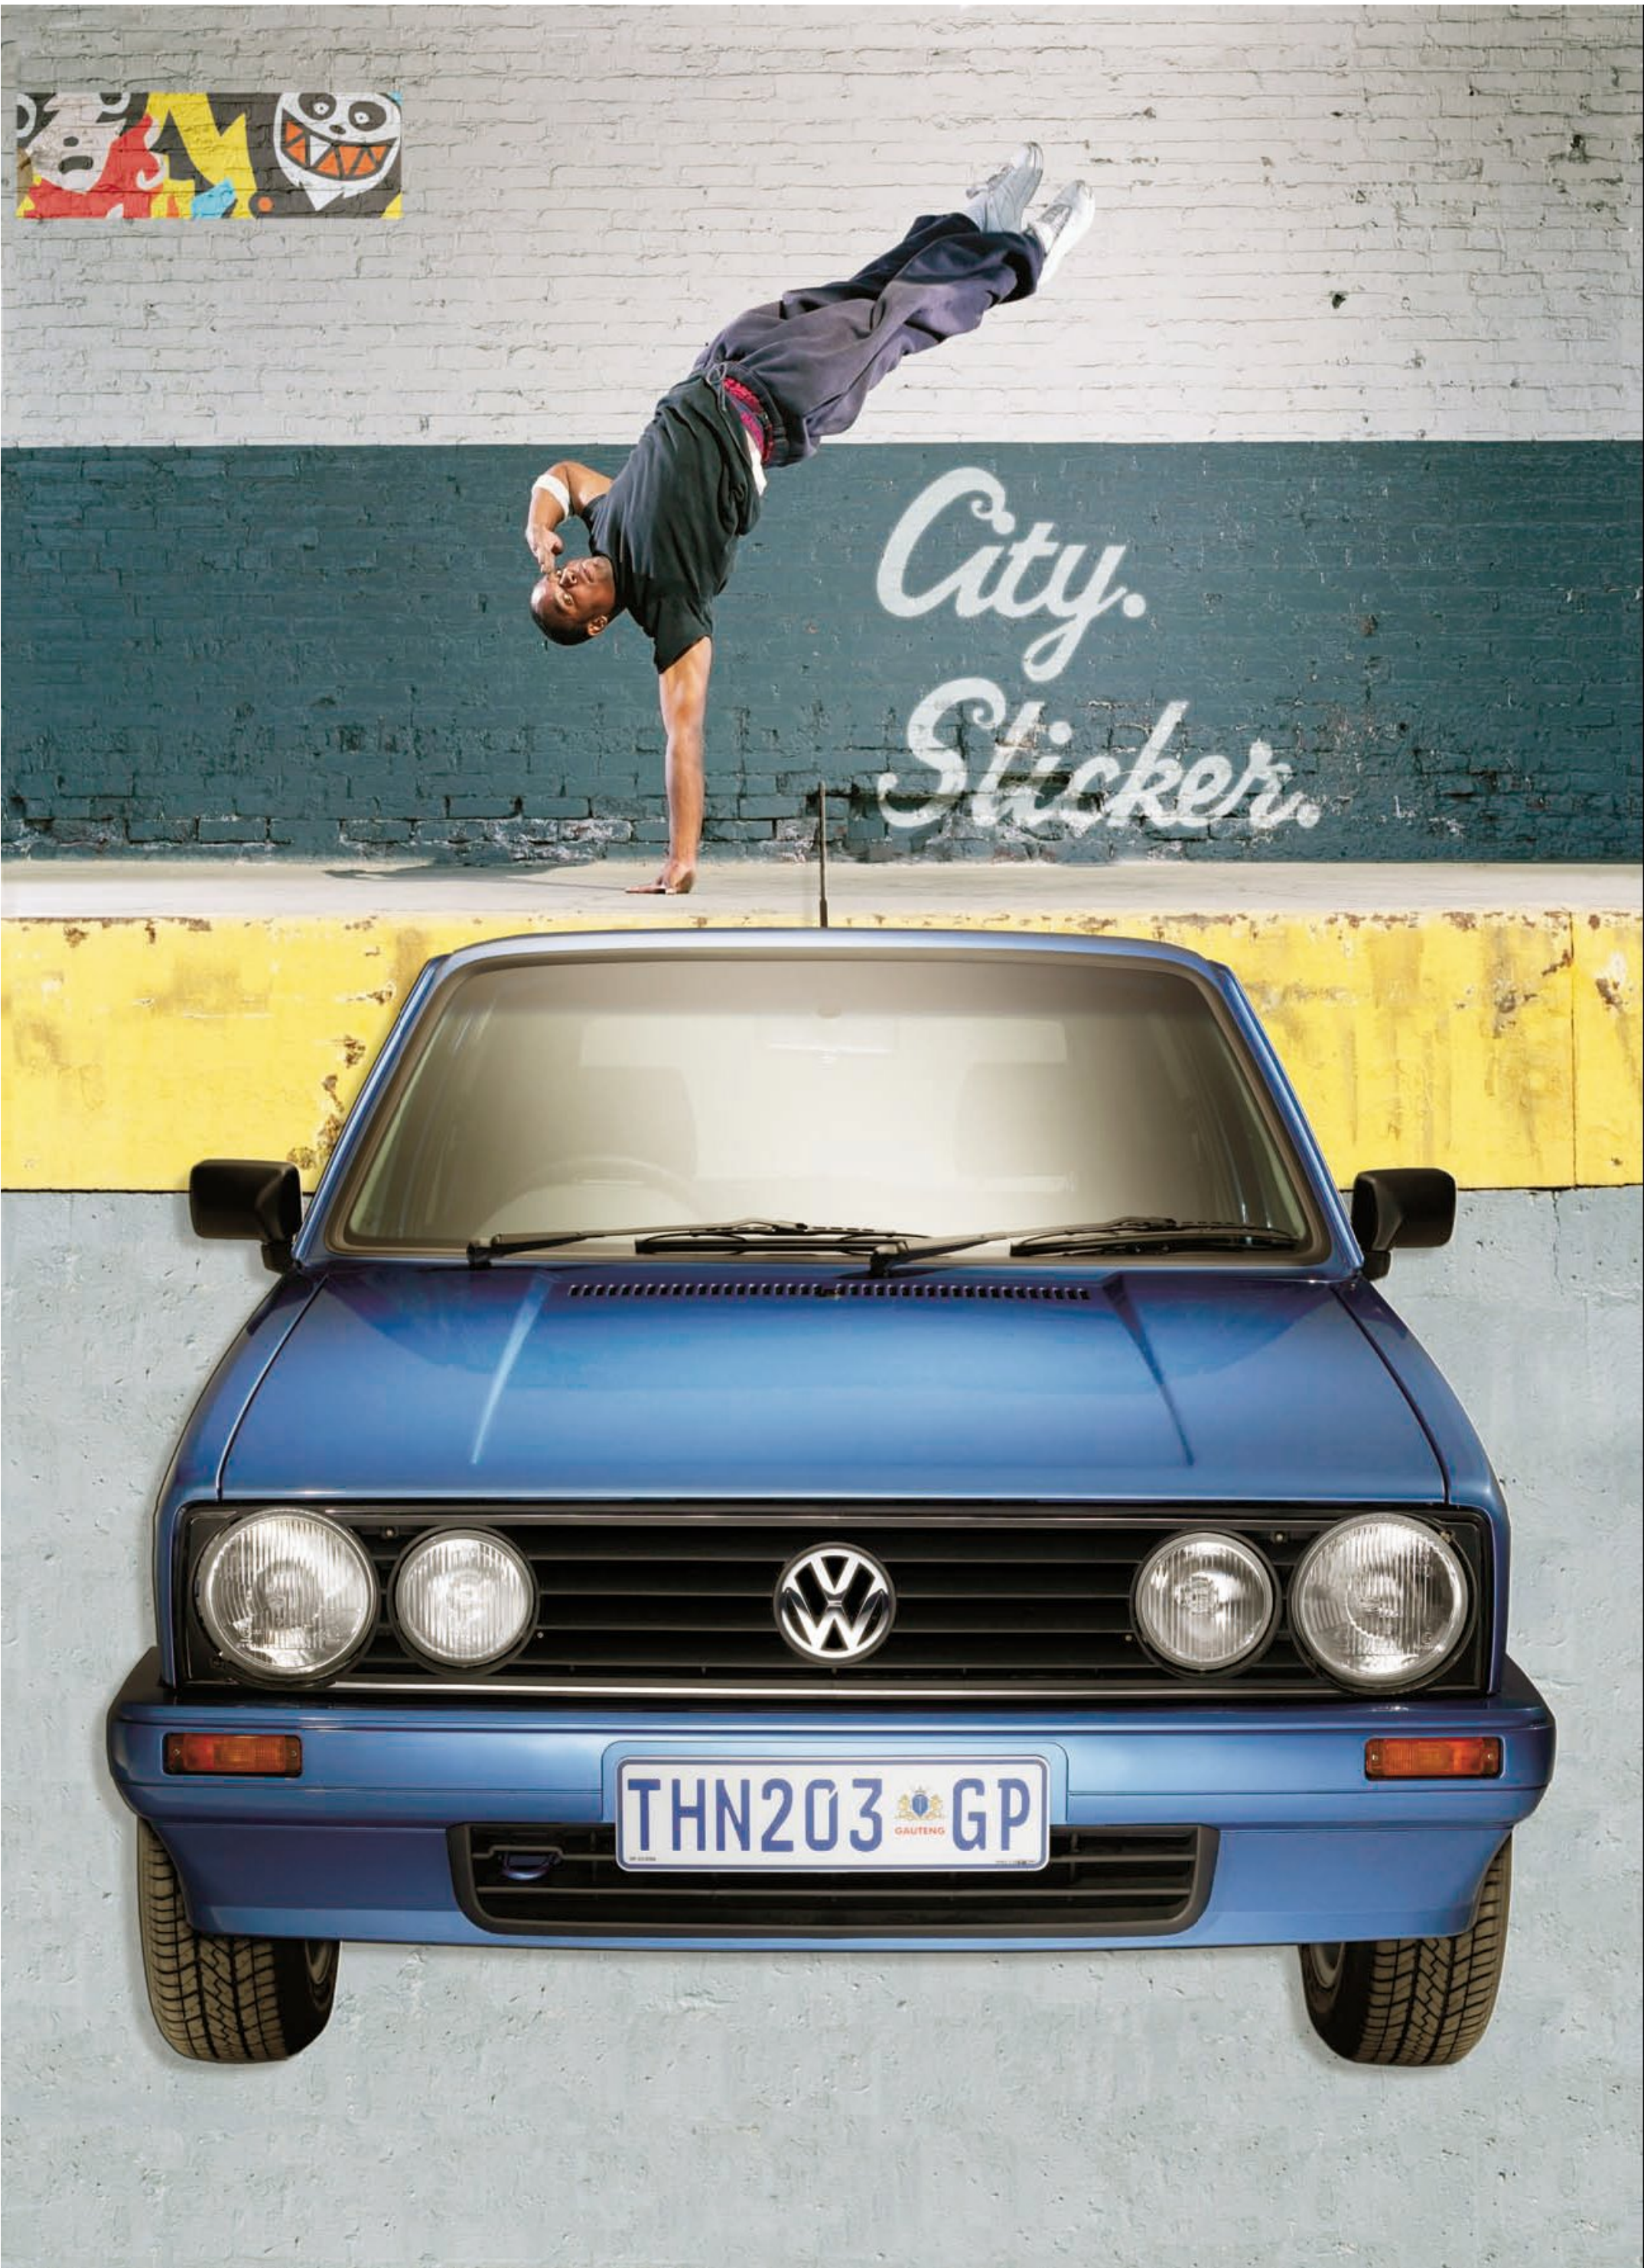

Imagine a city where the streets are awash with a million colours. Where graffiti is seen as art deco. Where traffic hums optimistically, and waiting at a red light is never frustrating or boring. A city constantly on the move. A city that lives, breathes and feels as though it belongs to you. It was made for you.

Imagine a city like that. Then put your foot down in a Citi.

City.
Slicker.

THN203 GP

Bright and charismatic, heads will turn wherever you roll. A lower front grille that follows the lines of the main grille, adds a dynamic element to the front of the Citi, enhancing its vibrant look and adding an air of even more sportiness. The back of the Citi looks just as good as the front, characterised by a large circular brake light, a gleaming rectangular reverse light, and an integrated indicator light.

Every Citi comes with a substantial amount of street cred - funky wheeltrims, bigger

front windows, and side view mirrors located further forward. And if it's performance you're after, look no further than the Citi 1.8i. One step on the accelerator and the 1.8i engine responds with a surge of power never seen before in a Citi.

There's even a trendy interior trim available in five different colours. Want rhythm? Just add beat. A radio/CD/MP3 player comes standard with the Citi 1.8i, VeloCiti and Rhythm models and as an optional feature on the rest of the range.

The interior is even more comfortable than ever before with tons of new features, including a modern new dashboard with cup holders. So make yourself comfortable, because you're in for the ride of your life.

Go where you want to go, be where you want to be. The Citi was built to let you ride. Lightning quick steering and off-the-wall handling combine with a 5-speed manual gearbox to ensure only the smoothest cornering and acceleration. All Citi's take you from 0 to 60 km/h in under 5 seconds - perfect for whether you need to get downtown or out of town.

Top up your game with the 90kw Citi 1.8i which takes off from 0-100km/h in just 8.5 seconds and produces 162 Nm of torque.

The powerful VeloCiti 1.4i and 1.6i come standard with twin exhausts, lowered suspension and a top speed of 0 - 100km in just 10.89 and 9.3 seconds respectively. They also have just as much flash inside as on the road - silver finishes on the dash, dials and pedals. The steering wheel is just as racy with an aluminium trim finish and soft-grip touch, its T-shape providing an unobstructed view of the gauges.

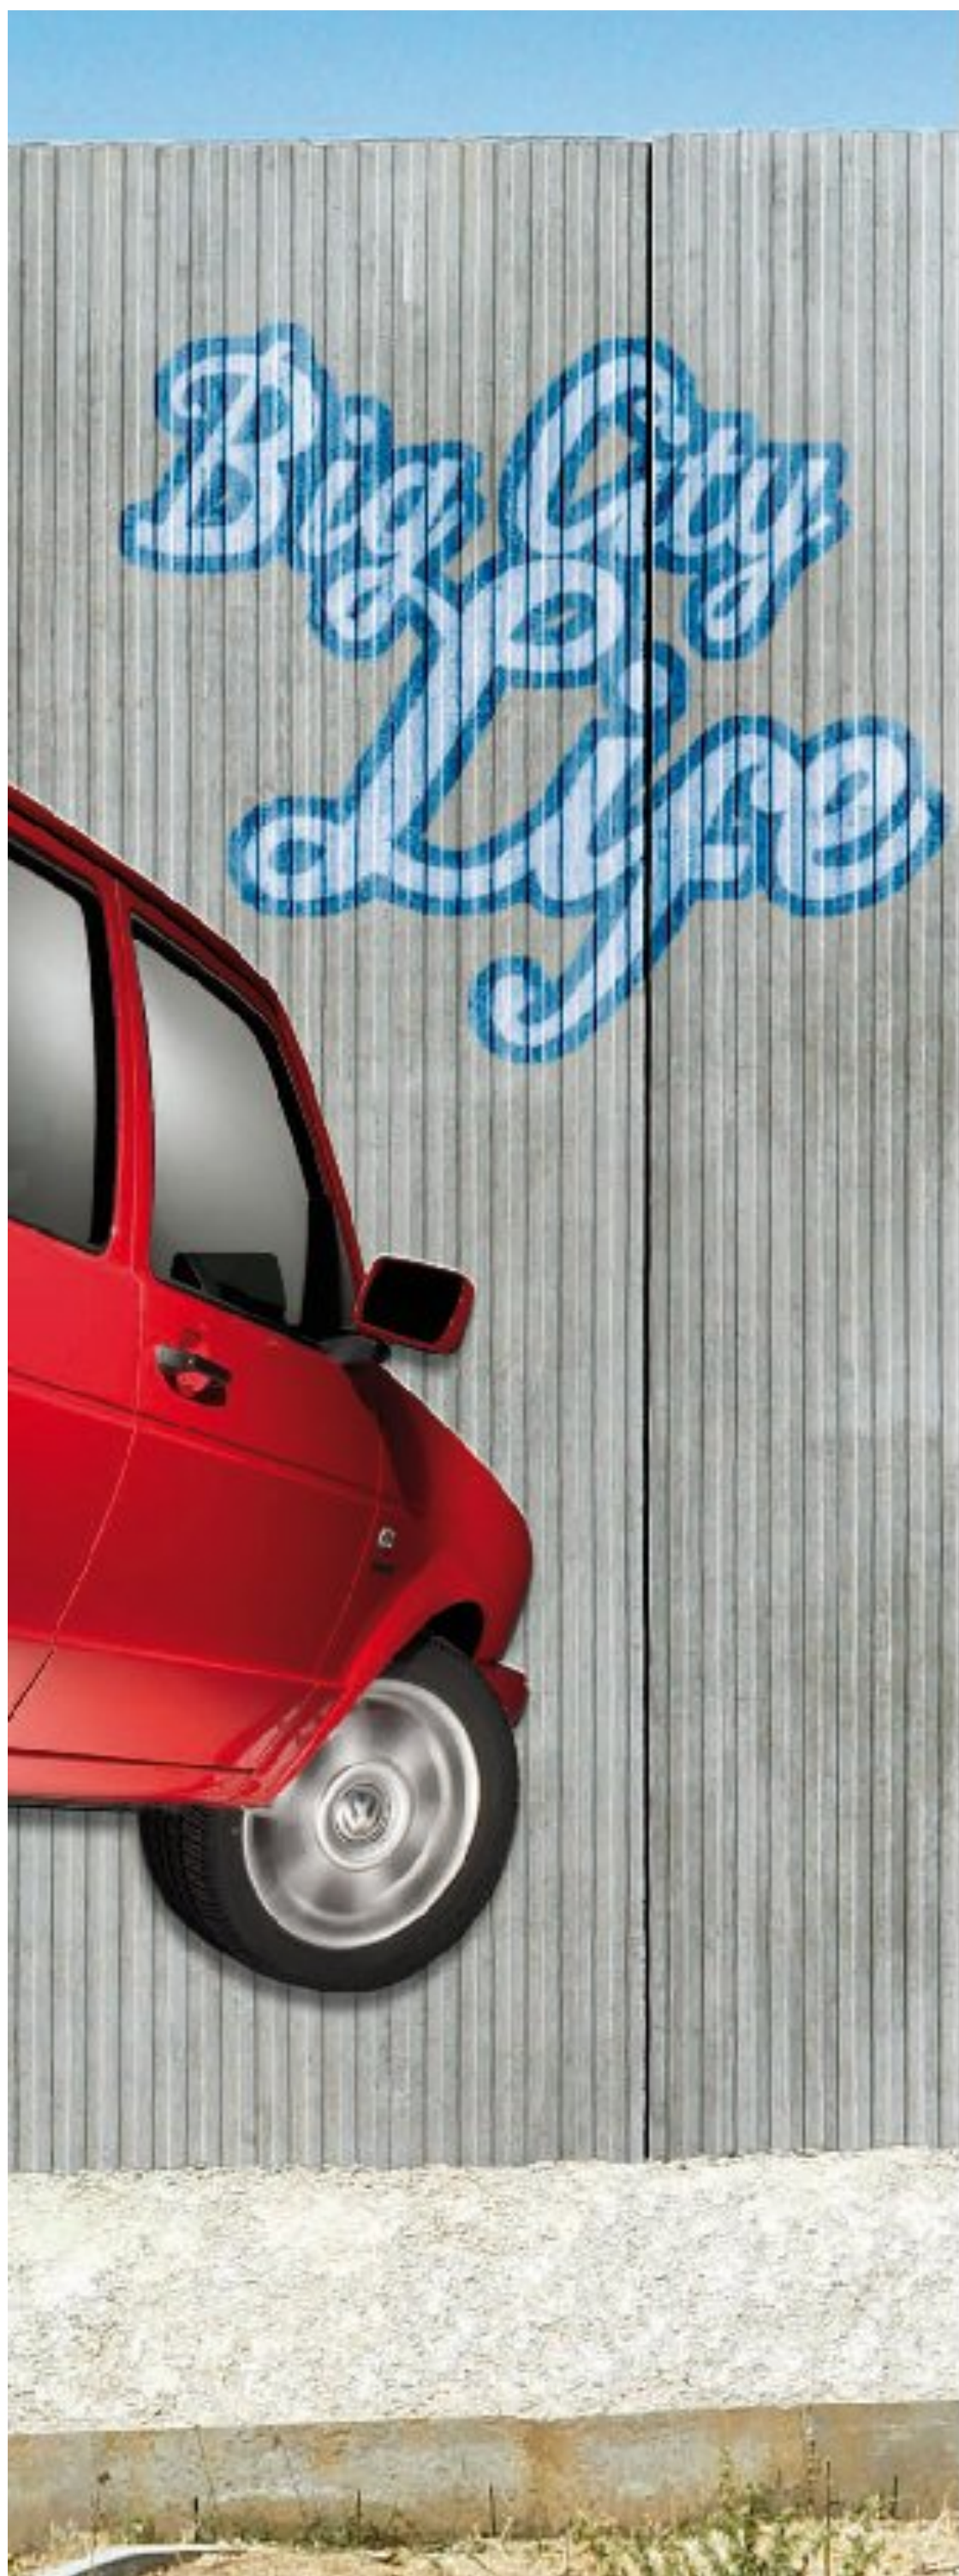

Or choose to see and be seen in the Citi 1.4i and 1.6i - truly gorgeous on the outside, proudly sporting their 14" 6-spoke alloy wheels and leaving you comforted no matter where you go, with remote control central locking.

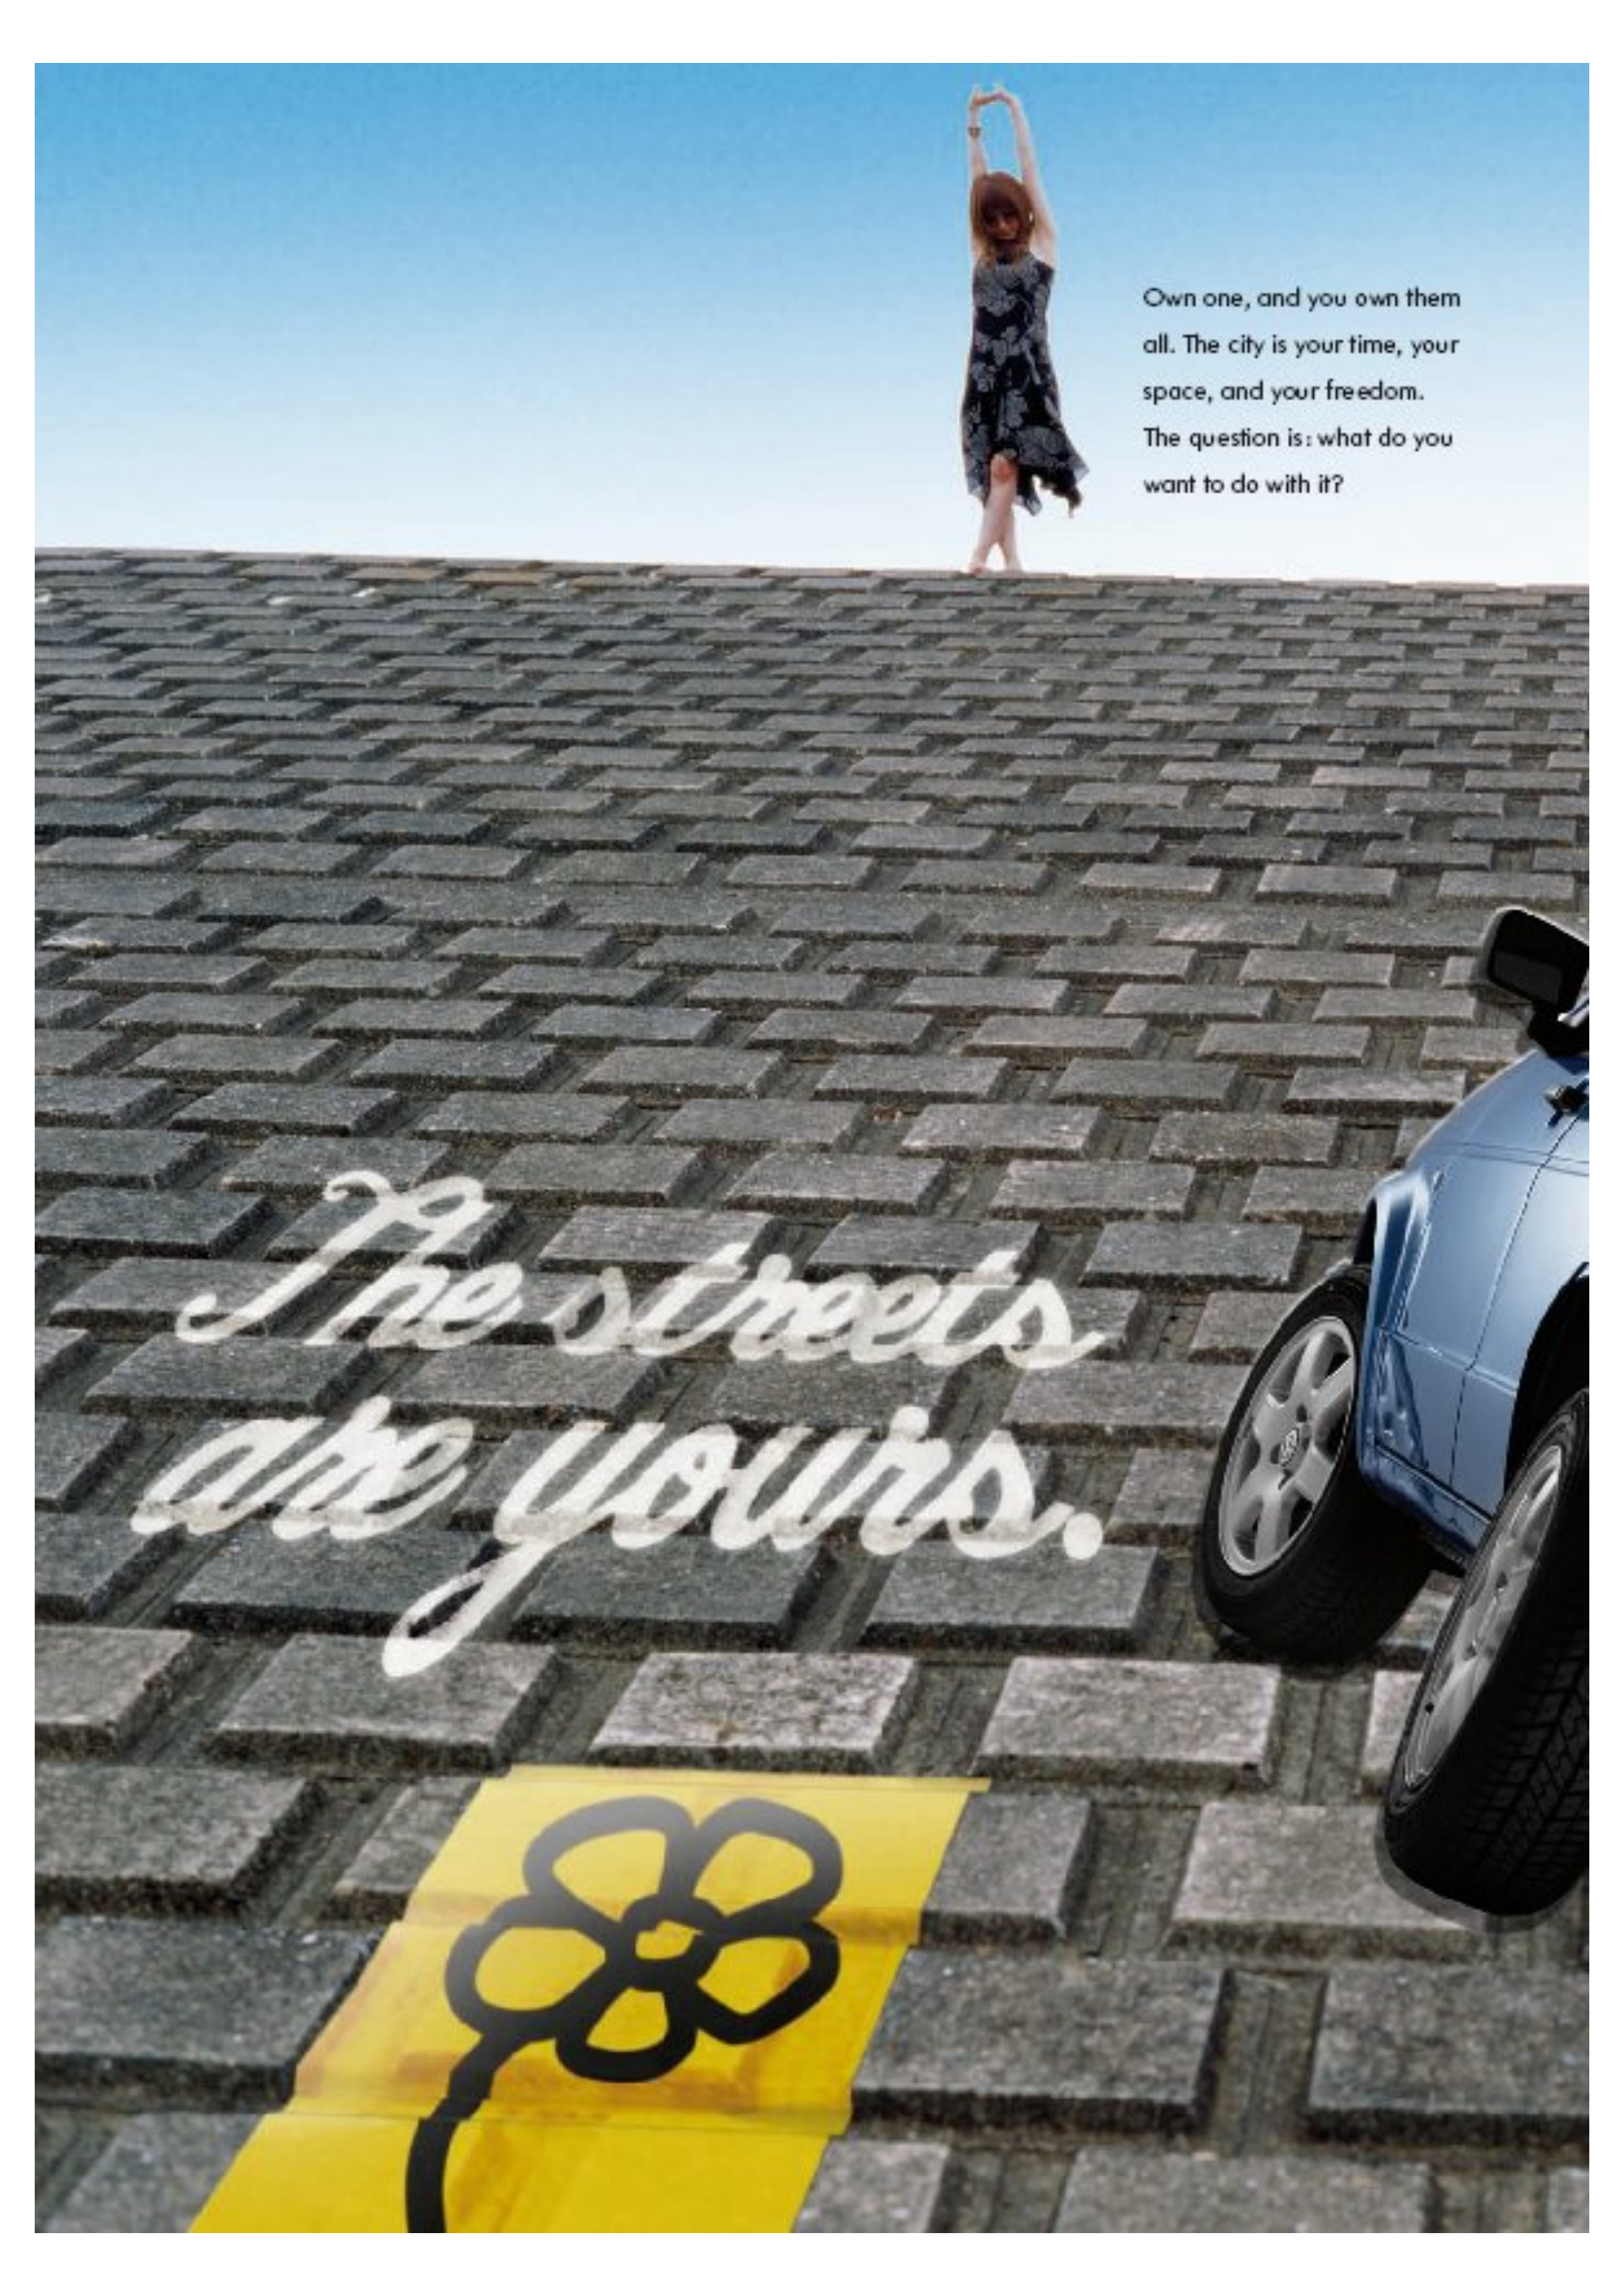

Get into the Rhythm 1.4 with 14" alloy wheels and colourful styling. Low on fuel consumption, you can cruise until sunrise, listening to your favourite MP3 in this Citi. Or mix it up in the Citi Chico 1.4, the most affordable car across the range - with as much urban panache as any in the range. You'll own the streets with its newly designed 13" steel wheels and bee sting aerial. With remote central locking and alarm available as an optional feature on the Chico and standard on the rest of the range, your Citi will remain where you left it.

Rigorous off-road testing ensures this icon stays where it belongs - on the road. Rust-proof, water resistant and able to last in the sun, there's a lot of life drilled into every Citi. A built in steel safety cell and crumple zones keep its body sturdy, whilst negative roll radius and skid prevention keep you balanced when you're braking hard. Coupled with three-point seatbelts, collapsible steering wheel and immobiliser, you'll feel safe no matter where you are in the Citi.

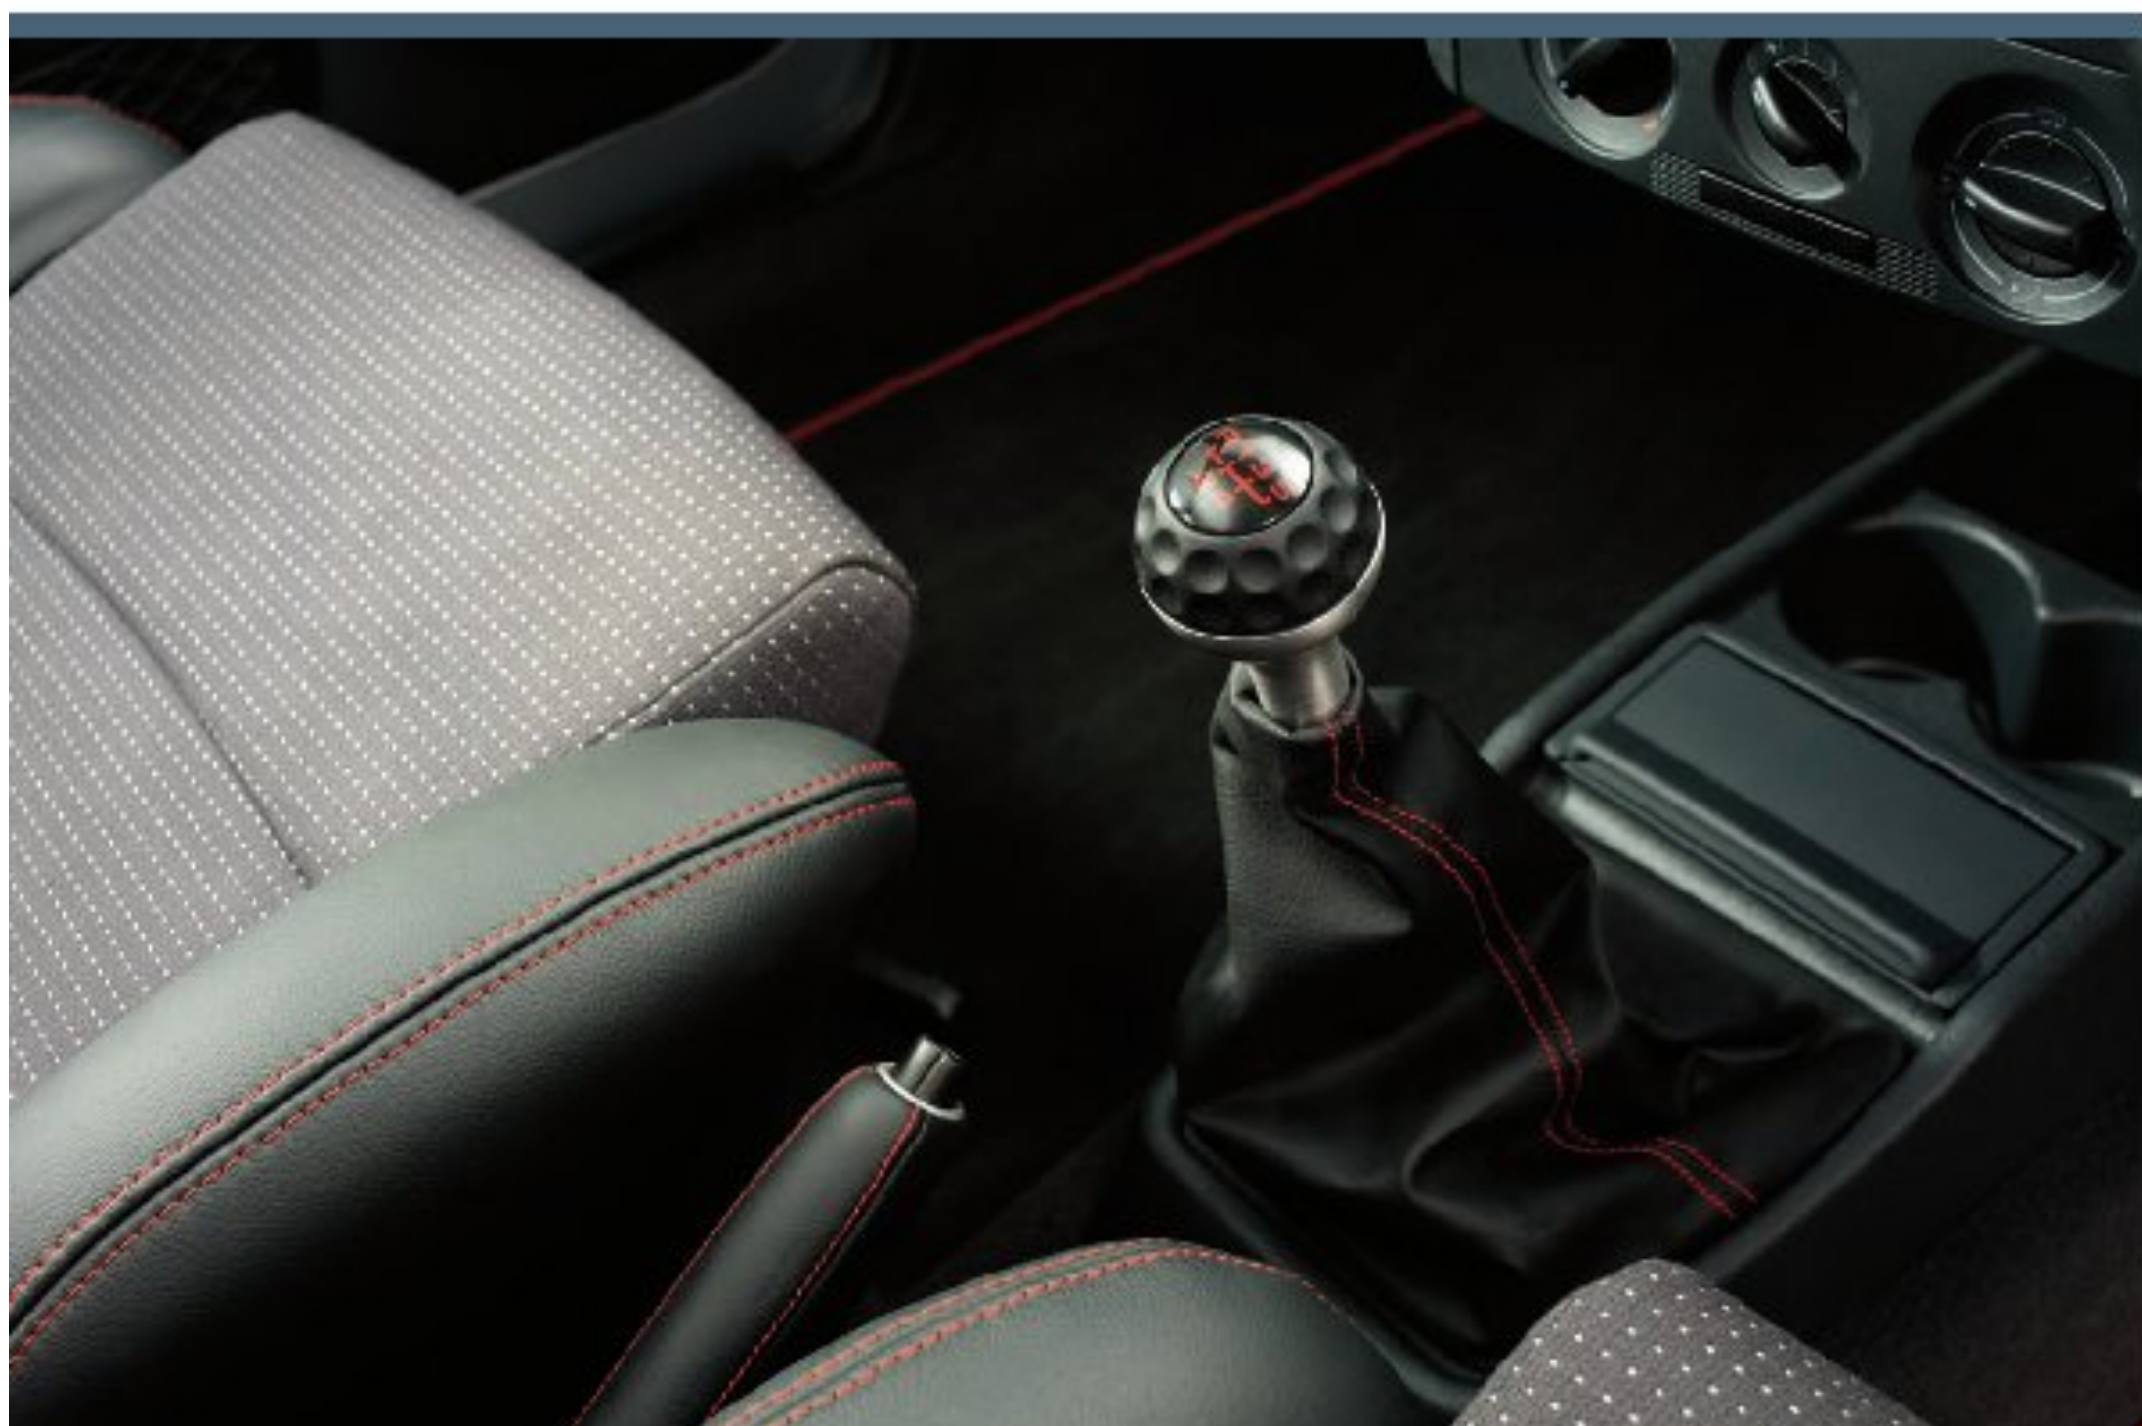

Own one, and you own them
all. The city is your time, your
space, and your freedom.
The question is: what do you
want to do with it?

*The streets
are yours.*
