

THE NEW VOLVO XC40

A VERSATILE SPACE

Everything starts with people at Volvo Cars – it's why we look, listen, and design cars around their needs. And it's why the XC40 is full of practical, versatile features that help you carry what you want as easily as possible. Load and unload your car with ease thanks to a large cargo area that can be accessed by a hands-free power-operated tailgate. If you need to carry bulky or unusually tall items then you can take advantage of the foldable, removable load floor. And if you need even more space, fold the rear seat backrests flat at the touch of a button.

Valuable items can be stored securely out of sight under the locking load floor. And, to make the load area as versatile as possible, the folding floor can be placed in multiple positions. There are also four load-securing eyelets to keep delicate items safe and to protect the car's occupants, plus two bag hooks that ensure your shopping doesn't move around or spill in transit. Whatever type of load you need to carry – large or small – your XC40 helps make it effortless.

Go hands-free

When your hands are full, the power-operated tailgate on the XC40 makes life easy – it means you only need to move your foot under the rear bumper to open or close it automatically.

The right fit

The XC40 helps you fit your life into your car. The load compartment is one of the largest in the class, with a regular shape that helps you make the most of the space. And the folding load floor helps you adapt it to whatever you're carrying.

STAND TALL

High ground clearance gives the XC40 a powerful stance and excellent visibility. Large wheels and tyres cope effortlessly with any road. This is the SUV that allows you to rise above it all.

ALWAYS READY

Large alloy wheels and a wide body give the XC40 a strong presence. This is an SUV that's ready for anything.

MAKE A BOLD IMPRESSION

Make a statement with a choice of contemporary colours. And, depending on trim level, the roof and door mirror housings can be specified in a contrasting colour for an even bolder look.

STRENGTH OF CHARACTER

The XC40 expresses toughness, and is unmistakably a Volvo, through features such as its proud grille, T-shaped light signatures and sculpted front bumper with skid plate.

LIGHTING WITH DISTINCTION

See and be seen, day or night, with LED headlights that feature Volvo's unique T-shaped light signature. They automatically adjust the beam height, and switch between dipped and full beam, to provide the best view and avoid dazzling other road users. The optional high-level LED headlights include active bending lights that turn with the steering (by up to 30°), to provide a better view through corners.

SPECIALLY DESIGNED ALLOY WHEELS

A selection of alloy wheels helps you to create your perfect XC40. Each one has a bold, dynamic design, as well as the attention to detail and high quality finish you expect from a Volvo.

YOUR OWN XC40 IS WITHIN REACH

Introducing the new Volvo XC40 – the compact SUV that is big on innovation. With expressive design, ingenious storage and smart technology, it is built for city life.

We approached the XC40 with a clear aim: to create a car that will make your life easier.

The result is a car with a commanding view of the road as well as an agile drive. A car with clever storage for all your belongings.

The XC40 could only come from Sweden, a country of innovation, creativity and progressiveness. A place where we do things differently.

XC40 MOMENTUM

Everything about the XC40 Momentum is self-assured and confident. It is genuinely urban with a Swedish twist. Strong, contemporary style, available in contrasting combinations.

Variants:	Diesel	Petrol

VOLVO XC40 FEATURE EXPLANATION

CITY SAFETY WITH FRONT COLLISION WARNING AND FULL AUTOBRAKE

Included as standard in your new XC40 is City Safety, which senses potential collisions, even when it is dark, and can activate the brakes automatically should you not react in time. City Safety provides three levels of intervention; warning, brake support and full autonomous braking and uses a combination of instruments and sensors to constantly monitor surrounding conditions.

PEDESTRIAN, CYCLIST AND LARGE ANIMAL DETECTION

The groundbreaking Pedestrian, Cyclist and Large Animal Detection technology detects and automatically brakes the vehicle in the event of a pedestrian, cyclist or large animal (such as cattle) stepping/swerving/jumping out in front of the car. The advanced sensor system scans the area ahead and will prompt you to act with a flashing warning light, along with an audible alarm. If you do not react to the warning, and a collision is imminent, the car immediately brakes with full braking force.

REAR COLLISION WARNING WITH BRAKING AT STANDSTILL

Rearward facing radar detects if a rear impact is imminent, and safety belts are tightened in advance in order to protect the occupants. Lights also start flashing to warn the driver behind and brakes are activated to help reduce the impact movement.

LANE KEEPING AID

Lane Keeping Aid is a standard-fitted system that helps the driver to keep the car in its lane by gently steering the car back if it is about to cross a lane marking if the car senses that the driver is not driving actively, or for example, not using their indicators. If the supplied steering intervention is insufficient the driver is alerted by vibrations in the steering wheel. The system is active between 65-200 km/h.

ROAD SIGN INFORMATION SYSTEM

The new XC40 can also help you stay informed by displaying real-world road sign information within your instrument display. This function also has the ability to warn the driver should the vehicle exceed the current road speed limit. At Volvo we understand that you have a lot on your mind sometimes.

PILOT ASSIST

Optionally available, is Volvo's next generation of semi-autonomous technology. The Adaptive Cruise Control feature maintains the desired set vehicle speed but utilises radar to monitor the vehicle in front and automatically slows down or speeds up as necessary. In an evolution of this, Pilot Assist also takes care of the steering (up to 130 km/h and when lane markings are clearly visible) by continually monitoring the area in front of the vehicle, making the necessary steering, accelerator and brake inputs as required to keep to the desired speed, distance and within the lane markings.

BLIND SPOT INFORMATION SYSTEM WITH CROSS TRAFFIC ALERT

The Blind Spot Information System uses sensors to alert the driver to vehicles within the mirror blind spots, on either side of the vehicle. Cross Traffic Alert uses radar to provide information to the driver about vehicles approaching from the side - for example when reversing out of a parking space. New in the XC40, Cross Traffic Alert now also includes braking support, which allows the car to brake on its own if an impact from either side is imminent.

PARK ASSIST PILOT

This function allows the car to take over steering control in difficult parallel or perpendicular parking spots. The driver is prompted to control the throttle, braking and gear inputs. The "park out" function also assists in exiting tighter spots.

VISUAL PARK ASSIST 360° CAMERAS

During low speed manoeuvres, the Visual Park Assist 360° Cameras provide the driver with additional information relating to the car's surroundings. A birds-eye view of the car is provided via four hidden cameras, digitally stitched together to create a seamless image on the centre screen.

RUN-OFF ROAD MITIGATION AND RUN-OFF ROAD PROTECTION

Run-off road accidents are amongst the largest cause of single vehicle accidents. To combat this, Volvo Cars has developed two support systems aimed at helping to avoid a run-off road accident from taking place, or protecting the car's occupants in the case of an unavoidable road departure. The Run-off Road Mitigation function is designed to help prevent unintentional road departures at vehicle speeds between 65-140 km/h. Run-off Road Protection focuses on accidental road departure. Using input from the car's advanced sensor system, the technology is able to detect a run off road scenario.

DRIVER ALERT CONTROL

Distraction, lack of concentration, and falling asleep are major reasons for accidents. In 2007 Volvo Cars introduced a world-first technology to combat this danger. Driver Alert Control keeps track of the car's path in relation to lane markings on either side, by means of the camera in the windscreen. If the system detects that the car is being driven in an erratic manner the driver gets an alert in the form of an audible signal as well as a text message and a coffee cup symbol in the driver display, that indicate it is time to take a break. With Sensus Navigation, the driver also gets guidance to the next available place to take the break.

"Sensus is our way of enabling you to communicate instinctively with your car, and keep you connected with your digital world."

YOU'RE IN CONTROL, NATURALLY.

SENSUS

Nothing rounds off a drive in your car better than luxuriating in the rich sound of your favourite piece of music. And our two sound systems – Premium Sound by Harman/Kardon and High Performance Sound – turn any drive into a momentous experience.

Thanks to Sensus Connect, which is standard, you can stream your favourite tunes from your device to your car via Bluetooth®. You can also use Bluetooth® or WiFi tethering to connect your Volvo XC40 to the Internet via your device. You can then browse the web and access a variety of internet radio and media apps.

With Sensus Navigation, you can view your route on the centre display with touch screen functionality. And with Apple CarPlay, you can use the centre display to access your iPhone® as well (version 5 or later). And if you would like to connect devices physically, USB-ports are provided as well.

"Relax and let your Volvo do the hard work for you."

"Our Drive-E powertrains give you an exhilarating driving experience with smooth, instant response and a reduced environmental impact."

COMMITTED TO SAFETY.

SUSTAINABLE DRIVING IS EXCITING.

INTELLISAFE

Since the birth of Volvo Cars in 1927, keeping you safe has been part of our DNA. We have pioneered safety advances and invented life-saving technologies, such as the three-point safety belt. We have also equipped all of our cars with safety cages and laminated windscreens since 1944. In 1976, we developed the catalytic converter and the lambda sond, a sensor that monitors exhaust gas, reducing emissions and boosting performance as well as economy.

Today, we are building cars that actively scan the area around you, looking out for the unexpected. Volvo pioneered City Safety, a low-speed collision avoidance technology that

helps prevent collisions even up to highway speeds. We were the world's first car manufacturer to include this feature as standard equipment in all new models.

We also developed Pedestrian Detection, a system that detects pedestrians and brakes the car when necessary, and we will not stop there. Cyclist Detection and Large Animal Detection are recent additions to the system.

Tracker Connect provides access to roadside assistance and emergency support at the touch of a button. In the future, our aim is to design cars that will prevent collisions with other road users altogether.

Volvo Cars has introduced three new safety features with the release of the Model year 2018 specification on the Volvo XC40 range aimed at keeping the driver out of trouble.

The new safety features are designed to provide the driver with automatic steering assistance or support – when required – to help avoid potential collisions.

1. City Safety has been updated to include steering support, which engages when automatic braking alone would not help avoid a potential collision. In such circumstances, the car will provide steering assistance to avoid the obstacle ahead. City Safety helps to avoid collisions with vehicles, pedestrians and large animals. Steering support is active between 50-100 km/h.

DRIVE-E

At the heart of every Volvo car we make is our approach to sustainable driving and innovative thinking. We offer a range of technologies that give you greater efficiency and lower running costs.

Our Drive-E powertrains combine the low fuel consumption and emissions of a four cylinder engine with the performance of a six or eight cylinder engine. The result is a smooth, powerful drive, with fewer stops at the pumps. We also offer an interior Air Quality System that checks incoming air for pollutants and

closes the vents when necessary – we call this CleanZone. An active carbon filter helps protect you from harmful gases and unpleasant odors, so you can breathe happy and healthy.

At Volvo Cars, we always strive to make our manufacturing process sustainable. All of the electricity for our factories in Sweden and Belgium comes from clean hydro-electric or wind power. Environmentally-aware mobility is central to our philosophy of intelligent, thoughtful luxury.

2. Volvo Cars has also added a system called Oncoming Lane Mitigation, which helps drivers to avoid collisions with vehicles in an oncoming lane. The system works by alerting a driver who has unwittingly wandered out of a driving lane by providing automatic steering assistance, guiding them back into their own lane and out of the path of any oncoming vehicle. This system is active between 60-140 km/h.
3. Volvo Cars' optional Blind Spot Information System, which alerts drivers to the presence of vehicles in their blind spot, has also received an update to include steer assist functionality that helps to avoid potential collisions with vehicles in a blind spot by steering the car back into its own lane and away from danger.

CHOICES THAT MAKE YOUR VOLVO AS UNIQUE AS YOU ARE

Choose the Volvo XC40 R-DESIGN and the XC40 receives a first class attitude adjustment - inside and out. Boldly provocative yet tastefully reserved, the exclusive R-DESIGN styling elements and sports chassis express a definitive passion for performance. From its aggressive nose with larger intakes to the rear diffuser with dual tailpipes, the Volvo XC40 R-DESIGN exudes confidence at every turn.

R-DESIGN upholstery

Settle back in unique off black Nubuck perforated leather sports seats.

R-DESIGN decor inlay

The centre stack and door handle inlays convey a sporty, contemporary feel.

Sports gear knob

A sporty gear knob with perforated leather, gives a performance ready look and feel.

Sports pedals

Enhance the driving experience with these tough, ridged sports pedals.

Sports steering wheel

Every R-DESIGN model features an exclusive sports steering wheel with embossed logo.

Sports floor mats

Look down and you will see exclusive sports floor mats that set the stage, front and back.

BESPOKE TAILORING FROM VOLVO. The finest fabrics, superb stitching and exacting attention to detail – whichever interior you choose for your Volvo XC40, you will be surrounded by luxury. How will you tailor yours?

NB It is not possible to reproduce exact original shades in printed matter.

The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model.
Additionally, driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.

* All fuel consumption figures and CO₂ emissions are based on the New European Driving Cycle (NEDC) test procedure. This test procedure is designed to assess the emission levels of car engines and fuel economy in passenger cars.

* The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model.

Additionally, driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.

* The weight of the vehicle will influence the level of CO₂ emitted. As a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO₂.

TURNING CIRCLE	ALL MODELS

Volvo Car Road Side Assistance

On 1 January 2014, Tracker Connect became Volvo's new roadside assistance partner.

Services include:

- Medical emergency assistance
- Fuel assistance
- Recovery towing
- Emergency transportation
- "Stand by you" roadside security
- Free mobile app
- Web access to conveniently position your vehicle or draw reports which can be used to log and submit business or private usage to SARS.
- Volvo Car South Africa branded smartphone app
- Flat tyre assistance
- Battery service
- Overnight accommodation
- Accident towing
- Repatriation
- In-car Volvo Assist button
- Impact detection
- Mileage monitoring

Furthermore, the option to include Proactive Stolen Vehicle Recovery for as little as R199* per month is also available.

* Reviewed and adjusted annually.

The number to call is 0800 MYVOLVO (698 6586)

Volvo Car Financial Services

Volvo Car Financial Services has flexible financing options that enable you to structure your deal according to your specific requirements.

We want your experience of buying and owning a Volvo to be enjoyable and hassle-free. That is why we have developed the following online service tools:

- Online finance application – apply for finance any time of day or night and get an instant answer.
- Calculators – calculate your monthly repayments or calculate the value of a vehicle that you could buy based on a specified monthly repayment.
- Account services – manage your account in a secure and user-friendly online environment in real time.

So, remember to insist on Volvo Car Financial Services at your dealer or simply visit www.volvocars.com/za for more information.

Volvo Versatility Finance

For a tailor-made deal and guaranteed future value.

With best-in-class guaranteed future value across the entire Volvo range, it is a forward-thinking way to finance and future-proof your dream Volvo. When you reach the end of your finance period, you can renew, return or retain your Volvo. It is all up to you.

Flexibility today. Certainty tomorrow.

* Terms and conditions apply. As at time of print.
