VOLVO XC90

"As with any luxury item – a finely crafted watch, a bespoke suit – its beauty might be obvious, but its true value is only revealed when you discover the expertise, the craftsmanship and the passion that went into making it."

ROAD PRESENCE

Be impressed, quite simply.

You know you're looking at truly great design when what appears simple at first glance turns out to be ingenious and stimulating once you discover the thoughts and details that make up the whole. And as with any luxury item – a finely crafted watch, a bespoke suit – its beauty might be obvious, but its true value is only revealed when you discover the expertise, the craftsmanship and the passion that went into making it.

The Volvo XC90 has this quality. Appropriately for a full-sized SUV, it exudes power, particularly with the upright grille and the strong shoulders, both of which

are classic Volvo style cues. As exterior designer Anders Gunnarsson says, "The car has an attitude that expresses confidence and self-belief. If you're proud and relaxed about your position in the world, you'll stand upright – just like the Volvo XC90."

But despite this sense of presence, the design is also exquisitely subtle: "It grows on you," says Thomas Ingenlath, Volvo Car's Senior Vice President of Design. "It's not all spectacle – it's about leaving the proportions and the technology underneath to create the drama. You suddenly realise how much sheet metal movement there is in the side section – how it grows over the rear wheel.

It's about perfect execution, and that took such a long time to achieve."

"The task to design the rear was more difficult", says Ingenlath. "We didn't want to use the elements that everyone else is using to make a car look more powerful. Most other car manufacturers are using horizontal lines. We used vertical lines. That is something that can be difficult. If you are good at it, you give a car an incredible status. We achieved that kind of status by reduction – not going into the horizontal but staying proud and upright. That is a nice aspect."

VOLVO SENSUS. THE BEAUTY OF INFORMATION.

SENSUS

Nothing rounds off a drive in your car better than luxuriating in the rich sound of your favourite piece of music. And our three sound systems – Premium Sound by Bowers & Wilkins, Harman / Kardon audio and High Performance Sound – turn any drive into a momentous experience.

Thanks to Sensus Connect, which is standard, you can stream your favourite tunes from your device to your car via Bluetooth®. You can also use Bluetooth® or WiFi tethering or the new P-sim (personal sim card slot) to connect your Volvo XC90 to the internet. You can then browse the web and access a variety of internet radio and media apps.

With Sensus Navigation, you can view your route on the centre display with touch screen functionality. And with smartphone integration, you can use the centre display to access your smartphone as well. And if you would like to connect devices physically, USB-ports are provided as well.

WE PROTECT WHAT'S MOST IMPORTANT. YOU AND YOUR FAMILY.

INTELLISAFE

The Volvo XC90 is packed with intuitive safety technologies as standard. They support you in your daily driving, help you avoid or mitigate collisions and protect you in the event of an accident. Most of the time, you will not be aware of these helpers, but they are watching out for you, day or night. We call this comprehensive, innovative approach to your safety IntelliSafe.

This commitment goes back to 1927. Our founders, Assar Gabrielsson and Gustaf Larson, stated that "cars are driven by people, so the guiding principle behind everything we make at Volvo is, and must remain, safety." Ninety years on, our vision is to design cars that should not crash and that by 2020, no one should be killed or seriously injured in or around a new Volvo car. We think our founders would have approved.

The Volvo XC90 is yet another step towards this ambition. In 2008, we launched City Safety – the world's first collision avoidance technology. In the Volvo XC90, City Safety has become more capable and versatile than ever. Day and night, it can help avoid or

mitigate collisions with other cars, pedestrians and cyclists in your path. And now, City Safety also includes Braking in Intersection – another world-first from Volvo Cars. If you should turn into the path of an oncoming car at a junction, your Volvo XC90 will brake automatically to mitigate a collision or prevent it altogether. The standard IntelliSafe technologies also include preventive safety features such as Road Sign Information, Lane Departure Warning and Electronic Stability Control. And it goes without saying that you also get Volvo's legendary strength. If you would like to build on this, the IntelliSafe Surround option is designed to alert you to hazards all around your car, while the IntelliSafe Assist option assists you for a relaxed drive in the city or on the highway. For example, by helping you to keep a safe distance to the car ahead and avoid lane drifting by gently steering you back to your lane if it is needed.

With our Pilot Assist System, your Volvo helps make every journey easier and more relaxing. It actively supports you by automatically adjusting the steering to keep the car centred in the lane while keeping your set speed and distance to the vehicle in front of you. Pilot Assist steering support is active from standstill up to 130 km/h, no leading vehicle required.

City Safety can alert you if you are about to collide with the vehicle in front and applies the brakes if necessary. The system is active at all speeds and can help avoid collisions at speed differences up to 60 km/h in relation to the vehicle in front of you. At higher speed differences, City Safety can help mitigate a collision. City Safety also brakes if you should turn into the path of an oncoming car in an intersection, again helping you to avoid or mitigate a collision.

City Safety also watches out for pedestrians and cyclists, even at night. This is particularly important as pedestrians and cyclists are much harder to see than cars in poor light conditions. If there's a pedestrian or bike in your path, City Safety brakes to avoid or mitigate a collision. As a world-first, City Safety also detects large animals such as horses and cattle.

A part of IntelliSafe Surround, our BLIS™, now with steer assist, system uses radar sensor technology to alert you to vehicles in your blind spot on both sides of your car and to vehicles approaching fast from behind. Cross Traffic Alert watches out for crossing traffic when you are reversing out of tight parking spaces. Alerting you for approaching vehicles as well as for pedestrians and cyclists, this technology is especially helpful in narrow and crowded areas where the side view might be limited.

ENJOYING MORE FOR LESS.

DRIVE-E

Drive-E is our all-embracing approach to efficient power and an uncompromising driving experience. Our new-generation Drive-E powertrains play a central role in this: in fact, they redefine how luxury cars will be powered in the 21st century. Yes, they deliver the performance and driving enjoyment you would expect from a luxury SUV. But thanks to our unrelenting commitment to efficiency, they reduce the impact on the environment as well. All this means you get power and superb driveability together with low fuel consumption and CO₂ emissions.

The key to this is our all-new, lightweight, low-friction, turbo-charged 2.0-litre four-cylinder engine, which is coupled with our newly-designed automatic eight-speed Geartronic® transmission. And to maximise the efficiency of our Drive-E powertrains, there is an ECO mode, which calibrates the gearbox and engine control systems for the lowest possible fuel consumption. ECO mode also softens the throttle response to further boost efficiency. And because the air-conditioning impacts on fuel use, it is disengaged in ECO mode, although it can be

switched on manually.

Then there is the Eco-Coast function, which uses the car's kinetic energy to save fuel. When the driver stops pressing the accelerator at speeds above 65 km/h, there is no engine braking; the car just coasts along with the engine at idle. And finally, the Stop/Start system also plays its part in lowering fuel consumption.

Our Drive-E diesel powertrains benefit from additional, diesel-specific technology. With twin turbos and the revolutionary i-ART direct fuel injection, this intelligent engine provides responsive, clean and efficient performance – each cylinder has its own microchip and pressure sensor for the perfect metering of fuel. Better still, this advanced engine remains in precise tune even after years of use.

" Our very powerful T8 Twin Engine AWD delivers astonishing performance without compromising on fuel efficiency and low emissions. "

DOUBLE POWER.

Nothing encapsulates our fresh thinking on 21st-century luxury and performance better than our top-of-the-range T8 Twin Engine AWD plug-in hybrid. Combining a super- and turbo-charged 2.0-litre Drive-E petrol powertrain with an electric motor, the T8 Twin Engine puts out an astonishing amount of power, which it delivers with a jaw-dropping amount of torque. But it can also be driven with fuel consumption which would put a compact car to shame. Not only does this petrol plug-in hybrid offer scintillating performance and amazing fuel efficiency – because the compact, high-capacity battery is mounted centrally along the transmission tunnel, the Volvo XC90 T8 Twin Engine AWD also handles supremely well.

It is versatile, too – the T8 Twin Engine AWD features different driving modes to suit virtually any driving environment. Pure mode is all about reducing fuel consumption and emissions. Working at speeds up to 125km/h, it uses electric power as much as possible, sending it to the rear wheels. This mode packs ample reserves: a full battery suffices for most people's daily commute.

But because the high-performance petrol engine can be called upon at any time, there is never any worry about range.

Hybrid is the default mode. Geared for maximum comfort, this uses the electric motor at the rear wheels as well as the petrol engine, which drives the front wheels. It does this either individually or in parallel to achieve an optimum balance between performance and efficiency.

Power mode, on the other hand, unleashes the combined forces of petrol and electric at the same time to all four wheels, while steering, transmission and brakes are tuned for sportiness. The AWD (all-wheel drive) mode improves traction and in addition the Off Road mode engages an electronically controlled limited slip differential function and can help you negotiate poor roads at speeds below 40km/h. So your Volvo XC90 can be a silent-running zero-emission city car, a blistering performance SUV, or a reassuring companion in challenging conditions.

RDESIGN

A sporty presence

This version was made for those who love to drive, with a unique, expressive personality distinguished by the R-DESIGN grille, sport contour seats, and glossy black roof rails and mirror covers.

The Volvo XC90 R-DESIGN is available in the following colours:

- Birch Light
- Bright Silver
- Crystal White Pearl
- Denim Blue
- Ice White
- Onyx Black
- Pebble Grey
- Saville Grey
- Thunder Grey

Sports tailpipes

From behind, the dual integrated tailpipes give the Volvo XC90 R-DESIGN a powerful, no-nonsense demeanour.

Sports steering wheel

Get to grips with this exclusive leather 3-spoke sports steering wheel.

Sports gear knob

A sporty leather gear knob gives a performance ready look and feel.

Sports pedals

Racetrack inspired to enhance the driving experience, enjoy the feel of these ridged sports pedals.

VOLVO ON CALL

The key to your digital world.

ALWAYS THERE WHEN YOU NEED IT

WARMS UP THE CAR *(or cools it down)*

KNOWS THE BEST RESTAURANTS *(and shows you the way)*

CALLS ROADSIDE ASSISTANCE *(and tells them where you are)*

With Volvo On Call, your car becomes more than just a means of travel – it is your personal assistant. It can tell you about the best coffee in town and send the destination to your car's navigation system. It knows when you have got appointments, where they are and how to get there. You can use it to make your car ready for the drive to the office, or the drive home, by remotely

cooling or heating the cabin. It helps to keep you safe, automatically contacting the emergency services if you are involved in an accident and telling them where you are. Volvo On Call keeps you connected to the things you need. It is always on. Always with you. Always there.

EVERYTHING IN ONE PLACE

*One app gives you control over your car's functions
and access to a world of convenient services.*

WARM WHEN IT'S COLD, COOL WHEN IT'S HOT

With remote climate control you should never need to wear a coat in the car again.

In Volvo cars from Model Year 2020, Volvo On Call can start the engine remotely so you can heat or cool the cabin. It is as easy as sending a text. Just select how long you want the engine to run for, confirm with your finger print or enter your Volvo ID password and the car will start.

Cars started using remote start cannot be driven – the engine has to be started with the key first.

Own a Volvo plug-in hybrid? Then you can use the car's system to heat and cool the car without needing to start the engine. We call it pre-conditioning. Tell the app when you want the car to be at the desired temperature and it will take care of starting the climate control at the right time.

YOUR DAY MADE EASIER WITH VOLVO ON CALL

From saving you time in the morning to helping you relax on the way home, Volvo On Call can be an indispensable part of your daily routine.

THE PERFECT START

When you get into the car in the morning it is warm and defrosted, thanks to the Volvo On Call app's ability to precondition the cabin. En route, you press the On Call button in the car and ask the operator to send your destination to the car's navigation system, so you do not have to manually enter it.

07.30

11.00

WHERE NEXT?

A calendar card shows your next meeting. You push a button in the app, sending the address to the car's navigation system.

FIND YOUR CAR

You have forgotten where you parked, so you use the car locator map to find the street and then use the flash lights function to pinpoint the car.

12.00

17.15

REMOTE CONTROL COMFORT

You set the timer to warm the car interior so it is ready for when you leave the office.

FIND A RESTAURANT

You head for home, not feeling for making dinner. The Volvo On Call operator knows where to go and sends the destination to your car's navigation system within seconds.

17.45

READY FOR A NEW DAY

A notification reminds you that you have a meeting in the morning. You send the location to the Sensus Navigation system and set the timer to precondition the cabin before you leave.

22.20

FINDS AND LOCKS YOUR CAR

If you forget to lock your car, the app will tell you and you can lock it remotely. You can also check the door lock status and unlock it too, making it possible to give anyone access to the car's interior. And you can do all of this wherever you are in the world.

Forgotten where you parked your Volvo? The built-in map in Volvo On Call will show you where your car is, give you directions to it and you can flash its lights from the app when you get near it.

VOLVO ON CALL KEEPS YOU IN THE KNOW WHEREVER YOU GO

With Volvo On Call aboard, you can experience the relief of having instant knowledge and personal support with the touch of a button. For example, if you are driving in heavy traffic looking for a nice restaurant, just press the On Call button in the car to get in touch with a Volvo On Call operator. Tell the operator what you are looking for, and in seconds your Sensus navigation system starts to guide you to the location.

Maybe you want to call somebody but do not know the number? Press the button, and the Volvo On Call operator will send you the number or connect you instantly.

In fact, Volvo On Call is like having a personal assistant by your side, 24/7.

CONNECTED TO THE WORLD

The Volvo On Call modem maintains a strong internet connection, giving you in-car wifi and hassle-free use of all in-car-apps wherever you go.

You can always connect your Volvo to the internet and access the in-car apps by creating a connection via your own mobile phone. With Volvo On Call, you can enjoy an even stronger, more reliable connection and the possibility of creating an in-car wifi hotspot. This is made possible by the Volvo On Call car modem and an additional SIM-card.

A reliable, strong signal

Your 4G* signal is strong and consistent because you are using the Volvo On Call roof aerial, making it easy and quick to use the internet. Where a phone would struggle with finding a signal in the car, the system in your Volvo can often work much better.

**Network dependant.*

Saves battery life

Using the Volvo On Call modem in your car to connect to the internet, means you do not drain the batteries of your portable devices, so they are ready to use when you really need them.

Streaming on the move

The strong signal means streaming music and films is quick and reliable, helping to prevent significant buffering or loss of data.

Wifi hotspot inside the car

Volvo On Call turns your car into a wifi hotspot, with the capacity to connect up to eight devices. So everyone in the car gets to use wifi, using their own device.

"HELLO. THIS IS THE VOLVO ON CALL OPERATOR. WE HAVE FOUND YOUR LOCATION AND WE ARE SENDING HELP."

In the case of an emergency, Volvo On Call is there to help make it better – 24 hours a day, seven days a week, 365 days a year.

With trained operators always on call, if something goes wrong you will get help straight away. Emergency assistance and access to roadside assistance are included in Volvo On Call, so you will get exactly the help you need – whether you were involved in an accident or a tyre punctured.

The GPS capability of Volvo On Call means the operators at the service centre can pinpoint your exact location. Even if you do not know where you are, the emergency services will.

Emergency services

In an emergency, press the SOS button and you are instantly connected to the Volvo On Call operator. They will send help (they will know where you are without you having to tell them) and stay with you until help arrives. It is like having a guardian angel sit next to you in the passenger seat.

Roadside assistance

Your on-demand breakdown service, ready to send assistance when you need help. Press the On Call button in your car or use the app to contact the service centre. An operator will find your position and send help.

Crash notification

If an airbag goes off or the safety belt pre-tensioners are activated – both of which will only happen if your car is involved in an accident – the car will automatically alert a Volvo On Call operator. They will then call you to find out what has happened. If they cannot reach you by phone, they will automatically send the emergency services to your location.

GETTING STARTED

Getting started with Volvo On Call is very straightforward and the app is simple to use.

Create and register a Volvo ID

You have to create a Volvo ID which you then register to your car in order to be able to access all connected services. This article describes how to create and register a Volvo ID to your car.

Create a personal Volvo ID

To create a Volvo ID, you must register an e-mail address and follow the instructions in the confirmation message sent to you. You can create a Volvo ID in the following ways:

- Via your Volvo
- Via the Volvo On Call app.
- Via www.volvocars.com/za/support
- Via your Volvo dealer who can help you to create a Volvo ID on request.

When you have created a Volvo ID you need to connect the Volvo On Call app to your car. Read more on www.volvocars.com/za/support

Can I try it out?

Yes – and you do not even need to own a Volvo. You can download the app for free and try it in demo mode, which gives you access to most of the app's functions.

What does it cost?

Volvo on Call is included in the new vehicle price covering all of its functions. Stolen vehicle recovery requires a separate subscription @ R199 p/month through Tracker. Costs related to the additional SIM-card are not included. New cars come with a five year subscription, after which it can be extended for a small fee. The cost varies according to the country you are in, so talk to your Volvo dealer to find out more.

How do I get Volvo On Call?

When you order your new Volvo, access to Volvo On Call comes as a standard feature from Model Year 2020. While you are waiting for the car to be delivered, download the app and try the demo version. When you collect your new car, the dealer activates Volvo On Call and you get a Volvo On Call PIN. This gives you access to the app and will control some of the app's services.

What devices can I use it on?

Volvo On Call is available for your smartphone, smart-watch, tablet and desktop.

Please note: Using the Volvo On Call app requires your car to be factory-equipped with Volvo On Call, model year 2020 and later. Depending on the model of your Volvo, there may be variations of the features available. Some of the functions and services are depending on mobile phone coverage and internet access, and may not be available in some markets.

** For more information and detailed compatibility please visit support.volvocars.com*

HOME

This is the starting page for everything you can do with Volvo On Call. From here you can find shortcuts to control the car's cabin temperature, start it remotely, lock and unlock it or find details of your recent trips.

MAP

Volvo On Call's map lets you know where your car is, tells you where you are and allows you to search for destinations that you can send to the car's navigation. And, if you cannot find your car in a car park, it can flash the lights and sound the horn. You can even use it to keep an eye on traffic conditions.

CAR

The Car screen keeps you up to date with your car's vital statistics and allows you to book a service. It is also where you can remotely check the status of items such as tyre pressure and washer and brake fluid levels. You can also keep a detailed record of your journeys using the Driving Journal.

MORE

On this screen, you can adjust the app's settings and if you need extra help, you can connect to the Volvo Support Site from here, too.

DRIVING JOURNAL

When this feature is enabled, each journey is automatically logged for 100 days, with data on where you have been, how long it took and how much fuel you used. The driving journal can be exported from the app to your email.

REMOTE START

Volvo On Call can start your engine remotely*, so you can cool down or warm up the cabin. Just choose how long you want the engine to run for and enter your Volvo ID password (it also works with Touch ID on Apple iPhone®).

DOORS AND LOCKS

The Volvo On Call app will check on the lock status of your car and, if any of the doors are unlocked, can lock them remotely. You can also unlock the car – no matter where you are – if you need to give access to a family member, for example.

MAINTENANCE

Monitor the health of your car. As long as all temperatures, pressures and fluids are within operating range, and the next service is not overdue, the app will display the message 'everything looks good'.

FUEL RANGE

Shows you how far you can travel on the remaining fuel in the tank, and your average fuel consumption.

Volvo Brand Experience.

**DISCOVER THE ROOTS OF VOLVO CARS
AND A WORLD OF SWEDISH ENJOYMENT.**

Welcome to the Volvo Brand Experience, a unique way to experience more of your new Volvo. For R60,000.00 per couple, you will be able to enjoy:

- Two round-trip tickets.
- Two-night stay in Gothenburg, Sweden – the home of Volvo.
- An exciting tour to the Volvo factory and Volvo Museum.
- A special VIP experience at the exclusive Volvo Factory Delivery Centre.

This immersive experience will give you first-hand knowledge of what makes your new Volvo different.

T&C's apply, subject to availability.

"Cars are driven by people. The guiding principle behind everything we make, therefore is – and must remain – safety" Gustaf Larson and Assar Gabriellsson, Volvo's founders. These days we are driven by other things too, including innovative technology, beautiful design, environmental care and quality. All to ensure we continue to build great cars.

RED CARPET TREATMENT FROM START TO FINISH.

The programme includes two return tickets to Sweden from South Africa as well as luxury accommodation and a dining experience in the heart of Volvo's hometown, Gothenburg.

Once landed, a luxury Volvo transfer will pick you up and take you through to Gothenburg, where a new take on the world of Volvo and our Swedish heritage awaits. You will visit our Torslanda factory and see exactly how your Volvo is made, with a special behind-the-scenes tour and an English-speaking guide.

The Volvo Museum is also in the programme, where our rich lineage of cars is on display – including our concept cars, experimental technologies and our most famous production models.

You will also enjoy a vehicle handover which matches your purchase. You will be shown the ins and outs of your new car by a Volvo Brand Experience professional who will immerse you in your new world of Swedish luxury.

Of course, a fine dining restaurant will complete the experience, and you will get a taste for traditional Swedish food like our traditional meatballs or *kottbullar*.

THE CHOICE IS YOURS.

Choosing the Volvo XC90 was the easy part. Now all you have to do is give it the twist that best matches your personality. Momentum is our most accessible variant.

And if you are aiming for top-of-the range luxury, you will love Inscription with its distinctive grille and added luxury. Finally, the R-Design is all about a sporty look, both inside and out.

XC90 MOMENTUM

This is a luxury car by any measure, and one that promises more than rewarding comfort and class-leading style. The XC90 Momentum is smarter and stronger in all the right places, for all the right reasons: you.

T5 AWD

XC90 INSCRIPTION

Exquisite details

Our exclusive Inscription version adds a more luxurious look and feel to the Volvo XC90. Each unique detail was carefully chosen for the driver who wants a bit more elegance, like the interior's soft Nappa leather and a stand-out front grille.

BESPOKE TAILORING FROM VOLVO.

The finest fabrics, superb stitching and minute attention to detail – whichever interior you choose for your Volvo XC90, you will be surrounded by luxury. How will you tailor yours?

NB It is not possible to reproduce exact original shades in printed matter.

We are very proud of the interior of the Volvo XC90. Every detail, every line, every shape is testimony to our designers' untiring pursuit of their vision: to create a space in which you feel relaxed, at peace and in complete control. It is an airy, uncluttered cabin, which gives you astonishing scope to choose the upholstery and interior trim that suits your personality.

Choose the interior and seats in charcoal to create a dynamic, cockpit-like feel, the warm amber option to convey the mood of a luxurious lounge, or our futuristic blond theme. Then, you can complement the look by accenting the cabin with

aluminium, wood, carbon fibre or charcoal décor panels. There are two seat types: the standard comfort seats are designed to ensure a pleasant and luxurious drive even on the longest journey. They are available in leather and fine Nappa leather. Then there are the power-operated, sculptured contour seats, which are available in fine Nappa leather and particularly suited to dynamic driving. In the R-Design version, the contour seats are standard and upholstered in a combination of fine Nappa leather and Nubuck textile. You also have a choice between steering wheels – one dark, and one in a two-tone design.

POLESTAR
POLESTAR ENGINEERED OPTIMIZATIONS.

Polestar engineers have taken a holistic approach to form a complete software solution that takes your driving to a new level. Five key functions have been optimized to provide faster response, better balance and more intuitive driving. This results in a car that responds quickly and predictably, which is important for those who engage in active driving, whether on the racetrack or on the road. This software upgrade is available through your local Retailer upon request.

Throttle Response

Throttle response has been recalibrated to provide improved feedback and accelerator reaction – ideal for overtaking or during active driving on a winding road.

Off Throttle Response

The engine and transmission have been calibrated to provide faster responses when the driver suddenly releases the throttle, providing improved predictability and control.

Gearshift Speed

Shift speed has been increased, allowing the car to accelerate faster and react more directly to driver input.

Gearshift Precision and Gear Hold

Shift points have been optimized to provide a more precise driving experience with faster acceleration. Gearshift points have been calibrated to utilize the optimized mid-range engine performance, while the gear hold function maintains the same gear when cornering with high lateral g-force.

Engine Performance

All Drive-E optimizations are made to provide greater performance in the engine's mid-range powerband – perfect for the sporty driver when overtaking, joining a highway or exiting a corner.

Engine	Transmission	Model Year	Original	Polestar	Difference
T6 Drive-E	8-Speed Geartronic	2021	235kW/400Nm	246kW/440Nm	+11kW/+40Nm
T5 Drive-E	8-Speed Geartronic	2021	187kW/350Nm	192kW/400Nm	+5kW/+50Nm
D5 Drive-E	8-Speed Geartronic	2021	173kW/480Nm	177kW/500Nm	+4kW/+20Nm
T8 Twin Engine	8-Speed Geartronic	2021	300kW/640Nm	311kW/680Nm	+11kW/+40Nm

IN FINE DETAIL. The nuts and bolts of your Volvo XC90. Whatever you need to know about your new car – be it fuel consumption, CO₂ emissions, top speed or boot space – you will find it here.

ENGINE		D5 Geartronic AWD	T5 Geartronic AWD	T6 Geartronic AWD	T8 Twin Engine
Configuration		Transverse – 16 valve	Transverse – 16 valve	Transverse – 16 valve	Transverse – 16 valve

Max. output ECE,	kW rpm	173 4000	187 5500	235 5700	300 (235 + 65)
Max. torque ECE,	Nm rpm	480 1750-2250	350 1500-4800	400 2200-5400	640 (400 + 240)
Octane rating		50ppm Diesel	95 RON unleaded	95 RON unleaded	95 RON unleaded
Fuel system		Twin Turbochargers	HP Turbocharger	Super & Turbocharged	Super & Turbocharged
Compression ratio		15,8:1	10,8:1	10,3:1	10,3:1

** ERAD: Electric Rear Axle Drive.

PERFORMANCE		D5 Geartronic AWD	T5 Geartronic AWD	T6 Geartronic AWD	T8 Twin Engine
Top speed km/h		180*	180*	180*	180*
Acceleration 0-100 km/h sec		7.8	7.9	6.5	5.6

* Volvo Cars, as a worldwide leader in safety, will limit the top speed on all new cars to 180 km/h from 2020.

FUEL CONSUMPTION**		D5 Geartronic AWD	T5 Geartronic AWD	T6 Geartronic AWD	T8** Twin Engine
Combined	ℓ/100 km	5.7	7.5	8.0	2.1 **
CO ₂ g/km		149	164	184	49 **
Fuel tank capacity	(litres)	71	71	71	70

** The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally, driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.

** Average fuel economy of 2.1-litres per 100 km in the XC90 T8 Twin Engine is achievable when the battery pack is charged, to enable a mix of petrol and electric driving. This is best attainable on shorter journeys in an urban environment. When the battery is depleted, and the vehicle relies mostly on petrol power, average fuel economy will rise. On longer journeys, local expected range will be around 1000 km. The stated combined fuel economy figure of 2.1-litres per 100 km is quoted according to the industry standard for plug-in hybrid vehicles (PHEV), tested according to the New European Driving Cycle (NEDC). The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally, driving style, traffic conditions, temperature, weight, as well as the age, mileage and standard of maintenance of the vehicle will affect a car's fuel consumption.

The weight of the vehicle will influence the level of CO₂ emitted. As a result, vehicles with higher levels of specification and factory fitted options may emit higher levels of CO₂.

A weighbridge must be used to determine specific weights.

TURNING CIRCLE	ALL MODELS

Volvo Car Finance
A product of WesBank

Volvo Car Financial Services

Volvo Car Financial Services has flexible financing options that enable you to structure your deal according to your specific requirements.

We want your experience of buying and owning a Volvo to be enjoyable and hassle-free. That is why we have developed the following online service tools:

- Online finance application – apply for finance any time of day or night and get an instant answer.
- Calculators – calculate your monthly repayments or calculate the value of a vehicle that you could buy based on a specified monthly repayment.
- Account services – manage your account in a secure and user-friendly online environment in real time.

So, remember to insist on Volvo Car Financial Services at your dealer or simply visit www.volvocars.com/za for more information.

A product of WesBank

Volvo Versatility Finance

For a tailor-made deal and guaranteed future value.

With best-in-class guaranteed future value across the entire Volvo range, it is a forward-thinking way to finance and future-proof your dream Volvo. When you reach the end of your finance period, you can renew, return or retain your Volvo. It is all up to you.

Flexibility today. Certainty tomorrow.

* Terms and conditions apply. As at time of print.

My Volvo App

The official Volvo Car South Africa App that lets you connect with your integrated services.

Integrated services include:

- Volvo Car Finance – Information around your finance agreement with Volvo Car Finance.
- My Volvo – Details around your specific vehicle.
- Tracker info – Tracker information like emergency assist, roadside assist, current location, and odometer adjustment.
- Volvo Insurance – Ability to arrange insurance for your vehicle.
- Warranties – Request a quote for warranty extensions.
- News – Current news around the Volvo Car family.
- Volvo Rental – Apply for your Volvo Rental.

Car Insurance

Volvo Car Insurance

Peace of mind. Our idea of luxury.

A Volvo-personalised insurance scheme. Highly competitive comprehensive insurance premiums available on all Volvo models.

Ask your Volvo dealer for more information.

Underwritten by Guardrisk Insurance Company (PTY) LTD, FSP NO:75.
Administered by Insurance Underwriting Managers (PTY) LTD, FSP NO:21820.

* Terms and conditions apply.

Volvo On Call (VOC)

One app gives you control over your car's functions and access to a world of convenience. Providing you with the best personal motoring services in the country. Your Volvo now comes standard with VOC*. Please refer to page 12 for more information.

Should your personal details change or you need to update your information, please contact **0800 MY VOLVO (0800 698 6586)**.

* Model year dependant.

V O L V O

All models standard with a 5 year / 100 000km Volvo Plan.
